COMMUNICATE TO THE MAX®

Enhance your existing printer, upgrade it to a Max MFP!
With our modular system we can add a scanner to your existing printer.

Share ideas, blueprints, drawings, sketches, changes and revisions with a MAX Scanner integrated with your existing printer.You get outstanding image quality, with real-time view of enhancements and automatic cleanup of faded, dirty, or poorly shaded documents.

MAX ONE

Focusing on ease of use and flexibility

MAX PRO

For high volume scan, copy and print environments

MAX ULTRA

The Ultimate in features, quality and function

FIVE FEATURES YOU'LL LIKE

TOUCHSCREEN
For your convenience, the MFP solution offers the choice of operating the touchscreen from the left or right side.

PRINTER COMPATIBILITY
MFP Repro solutions are compatible with all major printer brands.

INCLUDED DRIVERS
The MFP solutions support Windows 10 and Windows 8.1, 64-bit.

SUPPORTS POPULAR FILE FORMATS
You can work with all of the most used file formats like PDF, PDF/A, TIFF and JPG

NETWORK AND USB PRINTING
Nextimage REPRO includes free drivers for most HP, Canon, Océ, and Epson large format printers.

MAX Hybrid Print Systems

A MAX MFP solution can turn any new or existing printer into a copier, giving you the small footprint you need, without compromising performance or versatility. We have solutions for any environment – from occasional walk-up copying, printing and scanning in the office, to high-volume operator-driven services in reprographics departments, copy shops and printing and scanning service centers.

MAX Hybrid 71355 MFP

FEATURES:

- 36” wide print, scan and copy
- Up to 9 ‘D’ size/min in B&W
- 3 ‘D’ prints per minute in colour
- Dual Print Engines
- High Speed Colour/Mono 36” Scanner
- 2 or 3 Media Rolls
- Modular and Customizable
- Space saving design

MAX ONE 44 730 MFP

FEATURES:

- 36” wide print and copy
- 44” wide scanning
- 6 ‘D’ size/min in colour or B&W
- 6 ‘D’ prints per minute in colour
- High Speed Colour/Mono 44” Scanner
- 2 Media Rolls
- Modular and Customizable
- Space saving design

MAX PRO-2355MFP

FEATURES:

- 36” wide print, scan and copy
- 1 MAX PRO TM-355 MFP - 36” MFP
- 1 Canon TM355 - 36” Printer 1 Media Roll
- Up to 6 ‘D’ size prints per minute
- High Speed Colour/Mono 36” Scanner
- 2 Media Rolls
- Modular and Customizable
- Space saving design
- 44” scanner also available

MAX ONE TZ 4436 MFP

FEATURES:

- 36” wide print, scan and copy
- Up to 243 ‘D’ size prints per hour
- Top Stacker
- 2 Standard Media Rolls
- Space Saving Design
- Auto Paper Loading

Contex Scanners

SD One X

Scan/File/Share/Copy

Your fully featured large format scanner

SD One X has everything you need in an office scanner. With 24",36" and 44" versions and scanning at the highest possible accuracy, it's compact and unobtrusive, yet has all the features you need. Scan your oversized maps, engineering and construction drawings in-house with SD One+ to save space, time and money.

SD One MF

MFP Intelligently Simplified

Contex always strives to give you more: More details, more features, more possibilities and more quality! The SD One MF large format scanner is equipped with a touchscreen the size of a tablet PC. This enables you to operate, edit, annotate, mark-up, file, and share your scans to optimize your workflow.

- Mark-up and annotate your scans to copy on the IntelliPad.
- Protect your data. Log in with your PIN each time you scan.
- The only WiFi enabled wide format scanner. WiFi compatibility makes SD One MF easy to both set up and use.
- Supports PDF, JPG, TIF file formats

IQ FLEX

Creativity and productivity without compromise

The IQ FLEX is versatile with options for oversize documents, scan to print and also book scanning with page split and auto spine fold elimination. Mark-up documents as you scan and copy them directly from the touchscreen. Add a computer and our award-winning Nextimage software to unleash the full potential of the scanner.

- Ultra-fast one touch scanning.
- Scan A2 / C-size originals in 6 seconds
- Sharp focus with up to 1200x1200 dpi optical resolution.
- Scan up to A1/D-size document with auto stitching
- Connect to networks via Wi-Fi or LAN
- Save your scans directly to memory stick using the high speed USB 3.0 interface

HD ULTRA X

The new standard for wide format scanners

The HD Ultra X was designed to meet the needs of technical experts, graphical professionals, archivists and repro departments. Whether you intend to scan maps, drawings, posters, newspapers or fine art, this scanner will always capture every detail exactly as you see it.

Exceeding FADGI 3-Stars
The image quality from HD Ultra X together with Nextimage 7 exceeds the FADGI 3-star guidelines.

Energy Star 3.0 Certified
Like all other Contex large format scanners, HD Ultra X is Energy Star 3.0 certified.

High Quality Cameras
Contex CCD scanners use premium camera lenses to bring you high-resolution images in the best quality available on the market today.

True Size Detection
HD Ultra X finds the paper width automatically as it scans.

OTAC
Quickly and easily adjust the scanner to the thickness of any original with Optimal thickness adjustment control.

1200 dpi optical res.
48 bit CCD's
8.9 "/sec. 24-bit colour
17.8"/sec. Mono

HD Apeiron/42

Contact-free art scanner delivers the market's most life-like results

The Apeiron/42 uses unparalleled technology to accurately digitize media. With the market's most realistic image quality, full light control and a unique ability to emphasize details, the scanner is ideal for fine art, fragile artifacts and more.
This is especially suited for museums, copy shops, material manufacturers, and others, who now have a powerful new way to boost the quality of detailed and delicate originals with unprecedented accuracy.

Perfect for: Fine art, artwork, artifacts, posters and prints, building materials, textiles, delicate documents, and much more.

Contact Free Scanning
Scan your priceless originals without the face of the media touching the scanner.

FADGI ****
HD Apeiron/42 complies to FADGI with 4 stars - defined as the best imaging practical today

Large Format - Maximum Quality
Scans up to 42"x60" and 5.1" in height at up to 1200dpi.

3D Effect
Nextimage Apeiron software allows adjustment for the desired 3D effect.

ISO 19264-1
This specification applies to scanners and digital cameras used for digitization of cultural heritage material, and HD Apeiron/42 complies

Maximum Colour Rendering Index (CRI)
HD Apeiron/42 produces a color rendering index above 98

Adjustable 22" Touchscreen
HD Apeiron/42 is operated on a 22" touchscreen monitor with an adjustable arm for optimal ergonomics.

Book Scanners

BookTEK® 5

Achieve flawless scans with our BookTEK family of overhead book scanners. Your books rest gently in a V-shaped support, ensuring clear results without risk of damage, regardless of their size or type. Precision and care, all in one.

BookTEK® 5 V3

Features

- Scan size: 390 x 480 mm (15.3 x 18.9 inch)
- Internal controller - no PC required
- V-shape cradle to protect book spine
- Large 21” preview screen
- Lamp life 50,000 hrs
- Weight 29kg (64lbs)
- Gigabit ethernet connection

BookTEK® 5 V2

Features

- Scan size: 460 x 620 mm (18 x 24 inch)
- Internal controller - no PC required
- V-shape cradle to protect book spine
- Large 21” preview screen
- Lamp life 50,000 hrs
- Weight 33kg (73lbs)
- Gigabit ethernet connection

BookTEK® 5 V1

Features

- Scan size: 635 x 914 mm (25 x 36 inch)
- Internal controller - no PC required
- V-shape cradle to protect book spine
- Large 27” preview screen
- Lamp life 50,000 hrs
- Weight 90kg (200lbs)
- Gigabit ethernet connection

User-friendly and intuitive, the BookTEK 5 V3 operates seamlessly as a stand-alone unit or can be fully integrated into your network for enhanced workflow efficiency. Built for professional environments, it’s designed for continuous operation, delivering consistent performance around the clock with 24/7 reliability. Ideal for high-volume digitization projects, it ensures maximum productivity and precision even under demanding conditions.

Models

Basic

The entry level model offering the same scanning functionality and speed as the other levels at the lowest possible cost.

Kiosk

This model includes all of the features of the Basic model plus the Scan2Pad application for scanning and operation with any mobile device, foot switch and Full Coverage Warranty.

Professional

This model includes all of the features of the Kiosk model, but has a higher resolution of 600 dpi and client interface for 3rd party software to meet the highest quality standards. It also includes a foot switch and Full Coverage Warranty.

Options

- BE5-SCAN2PAD - Scan2Pad® wireless hotspot
- BE5-V2-PRO-OPT - Upgrade to Professional, Client Interface & 600 dpi
- BSW-P-BE5-01 * - Batch Scan Wizard Pro License for BookTEK 5 V2
- BE-TWAIN * - TWAIN driver
- S2N-FSC - Foot Switch, hardware accessory for batch scanning
- Scan2OCR -- Background OCR option for Scan2Net scanners (Only in connection with Batch Scan Wizard)
- Scan2ICC -- Subscription for ICC color management and profiles
- BE5-V2-BK-SP12M -- Full Coverage Warranty for one year-- Up to 5 years subscription available * only with the option: Client Interface & HD 600 dpi

Scanning and RIP Software

Nextimage

Nextimage wide-format scanning software to ensure image quality for both archival and printing.

Scan, copy or collaborate in a snap with the latest edition of the award winning Nextimage multi-function wide format software. Nextimage is designed to bring out every detail in your originals while protecting them for future use.

With the new SnapScan feature you scan, enhance and save your originals in a single flow. No rescanning needed. It is the perfect link between your scanner, digital storage, existing applications, and your printers.

Intuitive and powerful, Nextimage makes your workflow more productive and more connected than ever before. Let it improve your image today.

Key features

- SnapScan: Scan - Enhance - Save
- Integrated Multi-Function Software
- Touch-screen compatible - perfect for MFP and ScanStation use
- Scan to multipage PDF or TIF
- Track scans and copies per account
- Simple and Powerful GUI with clear controls
- 64-bit Windows compatible
- Real-time image adjustments – no re-scanning
- Built-in printer support for Canon, Epson, HP and others
- Batch mode for higher volume jobs
- Auto file-naming templates for easy indexing
- Scan-to-email sends images to anyone, anywhere
- Undo/Redo buttons and keyboard shortcuts
- ICC and Closed-Loop Color copying
- Auto palette creation for 8-bit indexed scanning

ONYX

Celebrating over 25 years of innovation, Onyx Graphics is dedicated to helping our customers increase productivity, reduce costs, and gain a competitive edge with superior print and color quality. We offer end-to-end solutions for print production workflow, from design through finishing. We're dedicated to understanding color and making it work for our customers by automating processes and providing cutting edge productivity tools for job preparation. Market-leading customer support and a broad user knowledge base are available to help every step of the way.

All Canon iPF Printers are Energy Star Certified!

Setting the Next Standard of Engineering - the imagePROGRAF TX Series

The imagePROGRAF TX Series printers offer innovative technologies integrated in their ink system, print head, and mechanical platform. These printers satisfy the needs of the high-volume CAD and low-volume LED plotter markets with print quality, usability, security features, and print speeds up to 199 D-sized prints per hour.

36" imagePROGRAF TX-3200

Flexibility and Quality
Available in 36" and 44" widths with 1200 dpi printing

Intelligent Media Handling
Simply place a roll in the opened drawer and slide in the media from the front of the printer with ease. The printer automatically detects media type, width, and length, for simplified user handling.

Media Output Options
The TX Stacker can stack up to 100 sheets of ARCH C, ARCH D, or ARCH E page sizes for increased productivity. For those who don't require this stacker, the Multipositional Catch Basket is available and offers choices on how prints will be outputted based on the type and quantity being produced.

Optional 2nd Roll Unit
The optional Multifunction Roll System is a versatile media handling solution system that enables either a second roll of media to be loaded on the printer, or can be configured as a bi-directional media take-up unit.

Lucia TD Pigment Ink
The TX Series feature the TD pigment ink set. This ink was formulated to produce fine lines and sharp text on both inkjet and non-inkjet paper and is available in 160ml, 330ml or 700ml Bulk Ink Cartridges

44" imagePROGRAF TX-4200

Security Features
The TX series support the security features often required for large-scale business segments, such as finance institutions or government and military.

Sub Ink Tank System
The Sub-Ink Tank System allows all of the available ink in a tank to be used before having to replace it, helping eliminate any wasted ink. The empty tanks can also be replaced on-the-fly without stopping the printer.

Software Printing Solutions
A wide variety of software is available to streamline your workflow - Direct Print Plus, CPP Publisher, Poster Artist Lite, Unified Printer Driver, AutoCAD Optomized Driver, Accounting Manager and more.

Direct USB Drive Printing
Direct USB thumb drive printing supports JPEG and PDF file formats.

Wifi Compatible
No Wi-Fi router is needed, which can provide greater freedom during installation.

500 GB Hard Drive
A built-in 500GB hard drive within the printer can increase productivity by relieving workload from the host computer, while providing a large capacity for print job data storage and retrieval.

36" imagePROGRAF TX-3200 MFP Z36 Scan-to-Copy/File/Share Solution

imagePROGRAF TX Z36 Large Format MFP

Scan-to-Copy/File/Share, the imagePROGRAF TX-3200 MFP Z36 and imagePROGRAF TX-4200 MFP Z36 models are integrated, multifunction, large-format solutions that include a Z36 scanner, all-in-one touchscreen computer, TX Stacker or Catch Basket, and SmartWorks software.

All in One Design
Scanner attaches to the top of the printer, newly developed model is smaller and lighter in weight than previous scanners.

Simultaneous Processing of Scanning and Printing
Scanner and printer work independently allowing for greater productivity

Z36 Scanner
- Scanning speed of up to 13 inches per second (monochrome) and up to 6 inches per second (colour)
- 1200 dpi Scanning
- Scan a document up to 1.0 mm thick
- Face up/front load/rear exit
- Straight paper path

SmartWorks Software
- An easy-to-use interface with customizable background and presets
- Scan-to-Multipage PDF as a standard feature!
- Real-time preview on the large 15.6" touchscreen

44" imagePROGRAF TX-4200 MFP Z36 Scan-to-Copy/File/Share Solution

Get the best of both worlds with the new Canon imagePROGRAF TZ Series of large-format printers.

Built with production, efficiency, and versatility in mind, the imagePROGRAF TZ large-format printer is a new hybrid solution! It's uniquely qualified to seize and expand the production aqueous inkjet market with its ability to print black-and-white line drawings and full-color posters on multiple media substrates.

The imagePROGRAF TZ-32000 Large Format Printer: The fastest imagePROGRAF printer. Ever.

A 5-colour, 36-inch aqueous inkjet model built for high productivity and efficiency for the low-end LED and high-end inkjet production CAD, engineering, government and other markets.

The TZ-32000 achieves the fastest printing speed of any imagePROGRAF printer to date at up to 4-D size prints per minute. Designed with many "Canon First" technologies built in such as twin carriage motors, an integrated top stacker that utilizes an air flow system and a dual roll media system with intelligent media handling, this printer is a powerful addition to Canon's portfolio of large format printers.

Fast Print Speeds
Up to 4 D-sized prints per minute and up to 243 D-sized prints per hour

Top Output Stacker
Stack up to 100 ARCH E sheets on the TZ Output Stacker.

Dual Roll System with Intelligent Loading
Auto Roll Loading, Smart Loading during printing, roll paper indicator

Lucia TD Pigment Ink
The TZ-32000 features the high-quality 5-colour TD pigment ink set. This ink was formulated to produce fine lines and sharp text on both inkjet and non-inkjet paper.

Security Features
The TZ-32000 supports the security features often required for large-scale business segments, such as finance institutions or government and military.

Sub Ink Tank System
The Sub-Ink Tank System allows all of the available ink in a tank to be used before having to replace it, helping eliminate any wasted ink. The empty tanks can also be replaced on-the-fly without stopping the printer.

Direct USB Drive Printing
Direct USB thumb drive printing supports JPEG and PDF file formats.

Wifi Compatible
No Wi-Fi router is needed, which can provide greater freedom during installation.

- 1200 dpi Print & Scan
- 330ml or 700ml Bulk Ink
- 5 Colour Pigment Inks
- 500GB Hard Drive
- Direct USB Printing
- Two Media Drawers
- Automated Roll Loading
- Top Output Stacker
- PC and Mac Drivers
- Up to 244 'D' size prints/hr.

imagePROGRAF TZ-32000 MFP Z36 Large Format MFP

A 5-colour, 36-inch aqueous inkjet Scan-To-Copy/File/Share production solution for high productivity and efficiency for the low-end LED and high-end inkjet market. The TZ-32000 MFP Z36 achieves the fastest printing speed of any imagePROGRAF printer to date at up to 4-D size prints per minute.

SmartWorks MFP Software
An updated look and feel that enables the operator to easily execute large-format scanning and copying.

Fast Print Speeds
Up to 4 D-sized prints per minute and up to 243 D-sized prints per hour

Z 36 Scanner
The light weight and compact Z36 scanner incorporates a SingleSensor Technology which helps provide consistent and better color accuracy

Top Output Stacker
Stack up to 100 ARCH E sheets on the TZ Output Stacker.

Security Features
The TZ-32000 supports the security features often required for large-scale business segments, such as finance institutions or government and military.

Sub Ink Tank System
The Sub-Ink Tank System allows all of the available ink in a tank to be used before having to replace it, helping eliminate any wasted ink. The empty tanks can also be replaced on-the-fly without stopping the printer.

Dual Roll System with Intelligent Loading
Auto Roll Loading, Smart Loading during printing, roll paper indicator

All the same features of the TZ-32000 Printer plus...

- Scan, Copy and Print
- Z 36 Scanner
- Smartworks MFP Software
- All in One Controller

imagePROGRAF PRO Series

imagePROGRAF PRO 2600
24" Printer

imagePROGRAF PRO 4600
44" Printer

imagePROGRAF PRO 6600
60" Printer

BUILT-IN HARD DRIVE - 160ML, 330ML OR 700ML INK TANKS - SCRATCH RESITANT INKS - DIRECT USB THUMB DRIVE PRINTING
SECURE PRINTING - COLOUR CALIBRATION - SPACE-SAVING DESIGN - INTELLIGENT MEDIA HANDLING

Newly Formulated Inks

Professional photographers, graphic designers, and more desire a wide colour gamut that accurately reproduces even the most difficult colours. From stunning black-and white prints with deep blacks, detailed gradations to extraordinary colour, the Canon imagePROGRAF PRO Series is designed to achieve it all.

The imagePROGRAF 60" PRO-6600, 44" PRO-4600, and 24" PRO-2600 professional large-format printers offer an 11-Colour plus Chroma Optimizer ink system that can bring your prints and reproductions to life. With intelligent media handling and colour calibration technologies, these are the most advanced large format printers Canon has engineered yet.

New LUCIA PRO II Ink Set

Designed to produce vivid colour prints with more accurate colour reproduction and improved black density colour output than predecessor models.

LUCIA PRO II ink

- Improved black density with a wide dark-colour gamut
- High scratch resistance
- Excellent light resistance for long term preservation of prints

Colour Calibration

This helps ensure your output is colour consistent over time and across multiple imagePROGRAF PRO series devices.

Media Handling

Intelligent media handling helps reduce time and waste

- Automatic media feeding
- Automatic media type, width amd length detection
- Reduced media feed processing time from previous imagePROGRAF PRO models

Sub Ink Tank System

The Sub-Ink Tank System allows virtually all of the available ink in a tank to be used before having to replace it, helping to eliminate wasted ink. The empty tanks can also be replaced on-the-fly without stopping the printer. This is extremely useful during your long print jobs.

Wi-Fi Compatible

Stay Connected. Wi-Fi connectivity is standard with the PRO Series printers.

All Canon iPF Printers are Energy Star Certified!

Ease of Use Design

- The user interface screen displays the ink levels, media indicator levels and other settings prompts all on the home screen
- Easily see ink tanks and loaded media through transluscent covers
- Interior LED light for reliable operation, such as previewing output while printing.

Environmentally Conscious

epeat GOLD

These models are registered as gold products in the U.S. EPEAT® environmental assessment system by the Global Electronics Council (GEC) EPEAT Climate Criteria, a nonprofit organization in the U.S. that provides verification of the environmental attributes of imaging equipment. Each model is also an ENERGY STAR® certified product. Final assembly and production for the printers is carried out at a production center in which 100 percent electricity used comes from renewable energy.

Software

Professional Print and Layout enables easy professional photo printing with editing and layout tools, as well as colour management capabilities.

Free Layout Plus is a print utility that lets you nest, tile and create custom layouts before printing your files.

Accouting Manager helps track actual ink an media usage and costs.

Media Configuration Tool

Recognizing the expanding array of media options for large format printers and to further improve the versatility of these new imagePROGRAF models, Canon has developed a Media Configuration Tool, which allows customers to not only utilize Canon-branded media, but provides the ability to make adjustments to printer settings to enhance the precision and quality of output achieved with third party media.

imagePROGRAF GP-200/300

The imagePROGRAF GP Series ink has been specially formulated to create bright, bold images. Canon's unique "Radiant Infusion" technology layers the Fluorescent Pink Ink with other inks on the paper surface during printing, producing bright and soft color reproduction. The imagePROGRAF GP Series is the world's first PANTONE© Calibrated printers for PANTONE© PASTELS & NEONS GUIDE coated.

Epson Surecolor F, R & S Printers

www.dccltd.ca

SureColor S7170 Printer

Grow your business with the SureColor® S7170—a 64" signage printer that delivers professional performance at an incredible value. Utilizing UltraChrome® GS3 4-color solvent inks and Epson Precision Dot technology, this printer delivers renowned detail and color performance, making it ideal for indoor and outdoor signs, banners, stickers, vehicle wraps and more.

4 Colour Printer - C, M, Y, K • 1200 x 1200 dpi • Print Width 64" (1625mm)
800ml ink tanks

SureColor S8170 Printer

Maximize your production capabilities with the SureColor® S8170 , the 64-inch solvent printer that sets a new standard in performance. With print speeds more than 20% faster and improved print quality compared to the previous generation, it delivers the highest productivity in our solvent printer lineup. A set of 6-color UltraChrome® GS3 inks , including light cyan and light magenta, helps reduce banding, even at the fastest production print speeds.

6 Colour Printer - C, M, Y, K, Lc, Lm • 1200 x 1200 dpi • Print Width 64" (1625mm)
800ml or 1.5 L ink tanks

SureColor S9170 Printer

Expand your perception of what a solvent printer can be. Offering the same extreme colour gamut Epson is known for, the SureColor® S9170 delivers over 99% of PMS® Formula Guide Solid Coated (2022 Edition) Full1. With an 11-colour ink set including Red, Orange and an all-new Green, you'll be able to faithfully reproduce virtually any colour for your customers. Plus, these inks provide extremely fast dry times, allowing for same-day lamination.

11 Colour Printer - C, M, Y, K, LC, LM, LK, OR, R, GR, CL • 1200 x 1200 dpi
Print Width 64" (1625mm) • 800ml or 1.5 L ink tanks

SureColor R5070 Printer

Your print center handles high volumes and needs powerful, versatile printing solutions that can tackle any job with unparalleled speed and efficiency. Thanks to revolutionary resin ink, producing exceptional print quality at the production speed you require has never been easier. The first of its kind to use versatile resin ink, this 64-inch roll-to-roll poster printer produces professional-quality wallpaper, textile, uncoated paper, and traditional posters at remarkable speeds. Designed to keep pace with the fast-moving print centers, the R5070 offers immediate lamination and user-replaceable PrecisionCore® printheads , along with ultra-low-cost inks for ease of use and unprecedented savings.

6 Colour Printer - C, M, Y, K, Lc, Lm • 1200 x 1200 dpi
Print Width 64" (1625mm) • 800ml or 1.5 L ink tanks

SureColor F570

EPSON
EXCEED YOUR VISION

Get fast, reliable dye-sub printing right out of the box with the 24" SureColor F570. Ideal for personalizing awards, mugs, mousepads and more, this high-performance dye-sublimation printer delivers professional-quality prints using powerful PrecisionCore® technology.

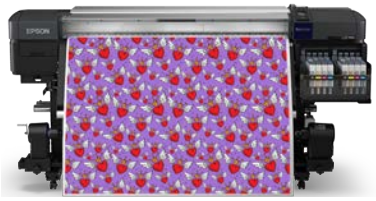
4 Colour Printer • 2400 x 1200 dpi • Print Width 24" (609mm)
140ml ink tanks • 50 Sheet ADF

SureColor F2100
Direct-to-Garment Printer

Designed exclusively for direct-to-garment printing, the SureColor F2100 offers an entirely purpose-built system for high-quality prints at production speeds. Additional improvements — like a quick-load platen and robust Epson Garment Creator Software — take productivity even further, while the all-new integrated self-cleaning system means less downtime.

5 Colour Printer • 1440 x 720 dpi • Quick Load Platen (14" x 16")
600ml ink tanks • Includes Epson Garment Creator

SureColor F9470



Built from the ground up, the high-performance SureColor F9470 64-inch printer is a reliable, turnkey solution for dye-sublimation applications. Designed to meet the unique needs of high-volume, factory environments, the F9470 includes dual PrecisionCore® TFP® printheads and delivers outstanding-quality prints at speeds up to 1,169 sqft/hour. Featuring UltraChrome® DS ink technology with High-Density Black ink, the F9470 delivers exceptional colour saturation and contrast for professional-quality apparel, soft signage, décor and more. Plus, with Epson Edge® workflow software, highly accurate roll-to-roll media support system with advanced auto paper-tension control, and high-capacity ink tanks, the F9470 supports seamless 24/7 production.

4 Colour Printer • 1440 x 720 dpi • Print Width 64" (1626mm)
3000ml ink tanks • Up to 1,169 sq.ft./hr

SureColor F9470H

Produce vibrant apparel, soft signage, décor and more with the high-performance SureColor F9470H 64-inch printer. Purposefully designed for high-visibility dye-sublimation printing, the F9470H features the full spectrum of brilliant UltraChrome® DS6 ink, including Fluorescent Pink and Fluorescent Yellow, for exceptional colour saturation and brightness. The perfect choice for high-volume, industrial environments, the F9470H includes dual PrecisionCore® TFP® printheads and delivers outstanding-quality prints.

5 Colour Printer • 1440 x 720 dpi • Print Width 64" (1626mm)
3000ml ink tanks • Up to 1,169 sq.ft./hr

KIP Print Systems

KIP is a leading global supplier of digital printing and scanning solutions for colour and monochrome wide format documents. KIP offers an extensive product range that meets the ever-increasing demand for fast, high quality, cost effective reproduction. KIP advanced product technology leads the market in performance, reliability and value with an exceptional low cost of operation.

B&W SERIES

71G SERIES

Optimum Workgroup Performance

KIP 71 G Series Systems are the leading advanced solutions for technical printing professionals. Up to 300% faster printing than inkjet systems with up to 50% cost savings. Perfectly collated sets at 360 prints per hour supported by two roll media capacity for unattended printing with top or rear stacking.

- 1 or 2 Media Rolls
- 4 or 6 D / A1 Size Prints Per Minute
- 240 or 360 D / A1 Size Prints per Hour

75G SERIES

Optimum Versatility

KIP 75 G Series offer Optimum System Versatility for Technical Printing Professionals. Confidently complete projects ahead of schedule with the KIP 75 G Series.

- 2 or 4 Media Rolls
- 8 or 10 D / A1 Size Prints per Minute
- 480 or 600 D / A1 Size Prints per Hour

79G SERIES

Optimum Productivity

KIP 79 G Series are the leading Production Class Systems for Technical Printing Professionals. Confidently complete projects ahead of schedule with 840 prints per hour. Superior reliability for high level performance.

- 4 Media Rolls
- 14 D / A1 Size Prints per Minute
- 840 D / A1 Size Prints per Hour

COLOUR SERIES

700C SERIES

The Power of Versatility

KIP 700 C Series systems utilize Contact Control Technology (CCT), the ultimate wide format imaging solution. Advanced toner technology controls the image with color registration that delivers smooth color and expressive black & white image quality.

- Three Models - Low, Mid & High Volume

MAX Digital 5’x8’ Super Cutter

- Cutting machine with work table
(2516VK-R work table with Auto feeding conveyor)
- One cutting toll holder,
- One CCD camera system (tracking printed marks)
- One Oscillating cut tool (with 20pcs blade)
- X.Y.R.UD servo motors
- Guide rail
- Drag chain
- Vacuum pump
- Soft ware
- Security system by infrared sensor

OPTIONS

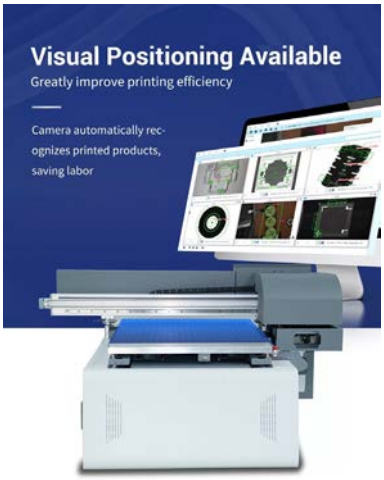
- Oscillating cut tool, for Grey/KT/PVC board, Corrugated, plastic, Leather
- Kiss cut tool , For stickers, Vinyl, thin material
- Creasing tool for Package box creasing line
- Pneumatic Oscillating tool/Foam tool For Hard boards, foam package is up to 800mm thickness
- Rotary tool, for Carpet, Rug, fiber, rubber, textile
- Extra tool holder for package box, for creasing and cutting in one pass

MAX Multi Flatbed UV Printer

Direct printing to rigid and flexible substrates

The 6090Ultra High-End UV Printer is designed to deliver unparalleled precision and efficiency in UV printing. With the latest Hoson CCD system, it ensures that every print job is executed with the highest level of accuracy. The CNC-machined X-axis and head holder provide robust construction, ensuring that the printer remains stable and durable over time.

- CMYK + White and Gloss inks for printing on dark and transparent materials
- Print on both rigid and flexible substrates
- Resolution up to 720 x 3600 dpi
- CCD Imaging System
- Height adjustable Gantry
- Automated printhead cleaning
- A1 size



Specifications

Printing Size: 60 x 90 cm (23.6 x 35.4")

Printing Technology: UV LED

Inks: UV Inks - CMYK + White + Gloss

Application: Mobile phone cases, cards, leather, wood, pens, golf balls, bottles, mugs and more

Printing Modes: 4 pass / 5 pass / 6 pass

Thickness: Up to 20cm (7.87")

Print Head: Epson i3200U1, made in Japan

Interface: Ethernet

Operating System: Windows PC

Printer Size: 162 x 133 x 86 cm (64 x 55 x 34")

Shipping Size: 170 x 150 x 105 cm (64 x 59 x 41.3")

Printing Weight: 200kg (441 lbs)

Shipping Weight: 290 kg (640 lbs)

Sound Level: 35-70db

In the box: Power cable, user's manual, spare parts package, USB Driver, extra dampers, inks tubing...

ImpoProof 246s

Automated Double Sided Imposition Proofer

The YDER ImpoProof 246S has earned a reputation as the premier double-sided printing solution in the world. The 7 colour 44" printer performance and a unique registration system has made the YDER ImpoProof 246S Imposition Printer the industry leader in speed, quality, accuracy and reliability.

IT IS FAST

You can achieve a top-end speed of 26 A1 two sided prints per hour at 1200 dpi.

IT IS ACCURATE

The time-tested camera registration system has made the ImpoProof 246S, without question, the industry leader in repeatability with a +/-1MM registration tolerance.

IT IS PROFITABLE

As a fully-automated solution, ImpoProof 246S Imposition Printer achieves an unmatched level of efficiency with the least amount of operator involvement and the combination of superior ink yield and a cost-effective list of certified papers guarantee the industry's lowest cost per double-sided proof.

Automatic double sided printing. No operator intervention required.

Camera registration system achieves highest possible accuracy

Up to 26 double side maps per hour at 1200 dpi

Printing Technology	Two 44" wide 7 colour Canon GP-4600s inkjet printers
Resolution	1200 x 1200 dpi, 1200 x 2400 dpi
Print Modes	Draft, Normal and high Quality
Colours	MBK, BK, C, M, Y, K, O
Ink Capacity	160 ml, 330ml and 700ml ink cartridges
Media Feed Type	Paper rolls
Media Width	36" or 44"
Media Length	Up to 450' on 24 lb bond
Media Weights	Coated and uncoated papers from 14lb to 36lb
Connectivity	10/100/1000 Ethernet connection
Electrical Requirements	100-120 VAC per printer
Dimensions & Weight	79" wide by 51" tall by 84" deep (+ computer) Weight is approximately 850 lbs. assembled. (2 printers)
Environment	Printing Range - 59° F to 95° F / RH 20% to 80% Optimal Range - 72° F to 79° F / RH 30% to 60%
Recommended System Configuration	• Intel® Core i7 6th generation or better • - 16 GB Memory (RAM) or more • - Non-partitioned SSD system disk with 500 GB or more • - Windows 10 (64 bit) or newer • - Internet Explorer 11 or newer

R750-36

Finally a folding machine for A0 format drawings at an impressively low price. Now technical offices and single specialists can avoid a boring problem of folding of their drawings coming out of ink-jet plotters or photocopiers of wide format.

- Parallel folding at 190mm (7,5”), with random final
- Parallel folding at 210mm (8,27”), with random final
- Max width of paper sheet: 92cm (36”), Max length of paper sheet: 2,5m (100”) approx.
- Back or front copy ejection depending on length of paper sheets
- Speed: 6 A0 per minute.
- Dimensions: cm 117(W) x 94(L) x 103(H), with closed table cm 71 (L)

R800-36

The R800-36 represents the ideal solution of all your problems with folding in a simple and professional way. With limited footprints, it produces impeccable results of your drawings coming out of large copiers and plotters.

- Automatic folding up to 92 cm wide (36”) in 3m multiple-sections and unlimited length.
- Folds any type of drawings including ink-jet.
- With minimal noise, it can be installed anywhere in your office
- Small footprint for small spaces 117 x 100 cm (46” x 39.5”).
- Offers a wide range of folding options at truly impressive speed, 7 A0 sheets/minute.
- Multi-programmable with Fold width adjustable 170-220 mm in 1 mm steps.
- Automatic measurement of the length of any drawing during folding.

R801-42

The R801-42 is a high-performance automatic folding offers a wide range of folding options at truly impressive speed. The R801-42 is designed and constructed for high volume professional use, perfect for Copy Shops, providing maximum reliability.

- Automatic folding up to 107 cm wide (42”) and unlimited length in 4m multiple-sections.
- Folds any type of drawings including ink-jet.
- With minimal noise, it can be installed anywhere in your office
- Small footprint for small spaces 134 x 107 x 104 cm.
- Impressive speed of 17 meters/minute.
- Four programmable modes - Presentation, Filing, Parallel and Cross Fold.

R801T-42

The R801T-42 is a complete folding group, for fanfolding and of the following cross folding in one step.

- Speed up to 17 meters per minute.
- Length: fan and cross fold: max 2,5 m. Only fan fold: unlimited in 4 meterssections.
- Width up to 107 cm.
- Digital technology with four programmed folding modes:
  - A) Programmed folding – first and last fold perfectly equal in width;
  - B) Filing folding with border of 20 mm (configurable for other widths) for files storage;
  - C) Parallel mode with random width of last fold;
  - D) Cross-fold mode in one step adjustable from 280 mm to 310 mm.
- Fan fold adjustable from 170 mm till 210mm.
- Cross fold adjustable.
- Optional: vertical stacker extra capacity 200 A0.

GCC Innovation With a Human Touch

PUMA IV LX CUTTERS

The new Puma IV enhances its capability to complete a variety of applications with great efficiency which satisfies your different needs in sign industry. The Puma IV includes Puma IV model and Puma IV LX model that provides upgrade functions to guarantee the quality of your cutting jobs.

Features:

- 24” and 52” models
- Cutting speed up to 40.2 ips
- Cutting force - 500g
- Material thickness 0.8 mm
- Sectional cutting for improved precision
- Includes Great Cut software

JAGUAR V-LX CUTTERS

The all-new Jaguar V series of vinyl cutting plotters includes the Jaguar V models (J5-61, J5-101 and J5-132), and Jaguar V LX models (J5-61LX, J5-101LX, J5-132LX and J5-183LX) . With intuitive features to meet the demands of today’s professionals, the Jaguar V series represents the apex of vinyl cutting plotter technology.

Features:

- 24”, 40”, 52”, 62” and 72” models
- Cutting speed up to 60 ips
- Cutting force - 600g
- Material thickness 0.8 mm
- Sectional cutting for improved precision
- Includes Great Cut software

RX II / RX II (Creasing) Vinyl Cutter

The brand new RX II series of cutting plotters is available in four sizes, 61cm, 101cm, 132cm, and 183cm, which are among the best models for higher blade pressure, faster-cutting throughput, and precision of long tracking compared to same class models.
Creasing Ability - Equipped with a dual tool holder for creasing tool and blade. Creasing on cardstock and cutting for small paper boxes

Features:

- 24”, 40”, 52” and 72” models
- 1530 mm/sec (60 in./s) (at 45° direction)
- Cutting force - 600g
- Material thickness 0.8mm (0.03 in.)
- Sectional cutting for improved precision
- Includes Great Cut software

MAX-AFR-24s Automatic Finisher

Digital Cutting & Creasing Machine

MAX AFR provides auto cutting and creasing functions in a sheet feed cutter simplifying your workflow for products such as packages, labels, transfer decals, stickers, menu cards, door hangers...

Cutting & Creasing

Equipped with the dual tool holders with creasing tool and blade, AFR offers cardstock creasing and cutting to make small runs of paper box.

Media Stacking

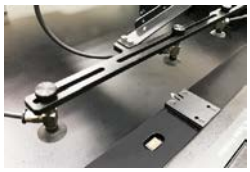
Up to 50mm (250 sheets)media stacking suggests great capacity tray and allows unattended operation.

Magnetic Media Separator

The special design of magnetic media separation mechanism prevents double feeding which ensure single sheet feeding each time as well as an uninterrupted workflow.

Adjustable Media Tray

With the adjustable hinge, the angle of the media tray can be adjusted to a proper position to collect the finished jobs.



Suction Cups

Strong suction cup can lift media easily to load into cutter.

Multiple Driver Options

The new interface allows users to set up multiple parameters by using different color lines. This gives the operator greater flexibility when setting up a job.

MAX AFR-24s Automatic Finisher Series	
Media Size	A4 (297 x 210 mm), SRA4 (320 x 235 mm), A3 (297 x 420 mm), SRA3 (320 x 450 mm), B3 (500 x 353 mm) (landscape orientation) Optional: B2 (500 x 707 mm)
Interface	USB 2.0 (Full Speed), Serial (RS-232C) and Ethernet
Dimensions	Approx. 1098(W) x 1140 (D) x 782 (H) mm
Weight	Approx. 47.5 kg (Cutter unit: 25.5 kg, Auto feeder unit: 22 kg)
Cutting Unit	RX II-61 (Creasing)
Cutting Speed	Max. 1,530 mm/s (at 45° direction)
Acceleration	Max. 4.2 G
Cutting Force	Max. 600g
Power Source	100 to 240 V AC
Power Consumption	Max. 251.8 watts

Optional Items

Metal Blade Holder

Cutting Blades

Cutting Pad

Stand

B2 Extension Plate

Manual Trimmers

Manual trimmer ideal for cutting drawings, photographs, posters, etc. A choice range of several different cutting widths and number of cutting blades. Smooth running blade carriage with hardened steel rotary blade. Sheet press made of transparent plastic. Available with or without stand and a retrieval tray for trimmings.

Desktop Trim Plus 100

Trim up to 100 cm (39") wide with a cutting thickness of 0.6mm.

Manual Trim 130

Trim up to 130 cm wide with a cutting thickness of 0.8mm.

Optional stand with catch bask

Manual Trim 150

Trim up to 150 cm wide with a cutting thickness of 0.8mm.

Optional stand with catch basket.

Electric Trimmers

These Wide Format Electric Trimmers are a perfect fit in Sign and Print Shops looking to improve their finishing solutions. Time-Saving features and functions make trimming faster and easier than ever.

RET-RH1500A – 65" for RET-1500 Trimmer

RET-RH2500A – 98" for RET-2500 Trimmer
Optional Roll Holder Available

FEATURES

- *Self-Sharpening Blade* Bidirectional self-sharpening rotary blade easily cuts in both directions
- *Easy to Use Touch* anywhere along the activation bar to activate the cutting blade or use the included Foot Pedal for hands-free operation
- ***Fast Efficient Trimming*** Fast 6.6ft/sec. blade speeds help reduce trimming time compared to using manual trimmers.

Heavy Duty - Manual Trim 160

Trim up to 160 cm wide with a cutting thickness of 1.2mm.
Smooth running blade carriage with hardened steel rotary blade.
A heavy duty trimmer with stand and catch basket.

RT 64/160 - cutting width 64"

LaMounter 1700M

- 60” (1520mm) Heat Assisted Cold Laminator
- Electronic nip pressure control
- Mounting Thickness 25 mm
- Maximum laminating speed of 16 m/min
- High Grade Silicone Rollers for Consistent Lamination
- Foot Pedal & Rear Remote Included
- Integrated Rear Material Rewinder
- Rear Slitters for Inline Print Separation
- Shaft Bar Roll Media Centering Guides
- Adjustable roller gap to 1 inch
- Mounting Thickness 25 mm

LaMounter 55H

- 55” (1397mm) Heat Assisted Cold Laminator
- High Grade Silicone Rollers for Consistent Lamination
- Rear Slitters for Inline Print Separation
- Front Facing Roller Nip Adjustment Crank
- Maximum Speed of Just Over 49 ft/min
- Foot Pedal & Rear Remote Included
- Integrated Rear Material Rewinder
- Shaft Bar Roll Media Centering Guides
- Adjustable roller gap to 1 inch

LaMounter 1151-45

- 45” Dual Hot and Cold Laminator
- Mounting up to 5/8” thick
- Maximum Speed Hot - 9.8 ft/min
- Maximum Speed Cold - 13 ft/min
- 9 memory channels for fast access to previously used speed and heat settings
- Adjustable pressure settings
- Easy load drop-in supply shafts
- Crowned high quality silicone rollers

PROBanner 24 Welder

Are you tired of trying to fabricate your banners with cumbersome banner tape but are unwilling to spend $4,000 and up for the current heat based hemming systems?

PROBanner 24 offers numerous capabilities including hemming for grommets, pole pockets and pocket sign fabrication, at a fraction of the cost of other hemming systems.

- All Steel component construction
- Hands Free, foot pedal operation
- Banner Hemming
- Pole Pockets
- Pocket Signs

Laminating Films

A cold mount laminate with UV protection sets the standard for pressure sensitive laminates.

Mobile Stand

Safco's Mobile Stand is a large file storage stand, featuring 12 pivot brackets that swing wide and hold up to 12 hanging document clamps (ordered separately).

- Document storage for art, construction, engineering, and other large documents
- Steel construction
- 12 pivot brackets that swing wide
- Holds up to 12 hanging clamps (ordered separately)
- Mobile stand on four 3" ball bearing swivel casters
- #5026

Vertical hanging clamps are hanging, aluminum clamps with black nylon wing knobs. Each hanging clamp - paired with 24" x 36" sheets - holds up to 100 sheets or 20 lbs. Featuring clear plastic label holders.

- 18" x 24" - #50016
- 24" x 36" - #50026
- 30" x 42" - #50036
- 36" x 48" - #50046
- 42" x 60" - #50056
- Packed 6 clamps per carton

DC MCB Rolling Stand

Our frames are constructed for strength and mobility and will not bow, even under the heaviest of loads. Finished in Satin Black scratch resistant powdercoat enamel. Stand design allows clear access to document as there is no obstruction to the front of the unit, eliminating possible document damage. Mobiles are supplied in kit form for self assembly using the one simple tool provided.

MADE IN CANADA

- One stand fits all sizes - Any size and most brands of clamp can be stored (clamps sold separately).
- Height Adjustable - This unit can be adjusted to two height to suit customer requirements (see below).
- System Shelf - Standard on all mobiles and offers additional storage capacity for associated files.
- Locking Castors - Standard on all units
- Dimensions - A0/B1 - 1370mm (h) x 590mm (w)
  A1/A2 - 1070mm (h) x 590mm (w)

The Multiclamp binder is an extremely strong, lightweight, two part aluminium clamp with a patented channel feature. Our premium binder can clamp sheets of any size securely within the one set of drawings without creasing, crimping or slippage. Each clamp has a 25mm opening capacity and will hold over 100 sheets. Available in silver anodised aluminium.

- DC PLF24 - 24" Multiclamps
- DC PLF30 - 30" Multiclamps
- DC PLF36 - 36" Multiclamps

Wire Roll File

Mobile Roll File Cabinet is a 24 compartment large document organizer, featuring a heavy-gauge steel rod design with white plastic coating. The compartments hold any size documents. 4 all-surface 2" casters provide easy transportation of large file documents.

- Heavy-gauge steel rod with white plastic coating
- Compartments hold any size document
- Mobile on 2" all-surface casters
- 24 tubes | 3 1/8" x 3 1/8" | 21" W x 14 1/4" D x 31 3/4" H
- #3088

Tubular Steel Wire Roll File

The Tubular Steel Wire Roll File is a lightweight tubular steel and chrome-plated grid, featuring square tube design with 12 document compartments. Easily transport documents on the workspace organizer's mobile twin wheel casters (two locking).

- Lightweight tubular steel and chrome plate grids
- Square tube design
- Mobile on twin wheel casters (two locking)
- 12 tubes | 3 3/4" x 3 3/4" | 18" W x 12 3/4" D x 24 1/2" H
- #3090

Mobile Roll File

Safco's Mobile Roll File Cabinet is a 20 compartment large document organizer, featuring a durable, textured vinyl laminate finish. The grandstand design features 21 square storage areas to hold large, tube documents, and 2" swivel casters for a mobile roll file cabinet solution.

- Textured vinyl laminate finish
- Grandstand design with 20 square tubes
- Mobile on 2" swivel casters
- #3082

Pivot Wall Rack

Safco's Pivot Wall Rack is a surface adhering large file organizer. The file storage rack holds up to 12 document hanging clamps (order separately). The pivot brackets swing side to side with easy access to hanging clamps. Order includes 12 pivot brackets and mounting hardware.

- Document storage
- Easy access hanging clamps
- Pivot brackets swing side to side
- Unit holds up to 12 hanging clamps (order separately)
- Includes 12 pivot brackets and mounting hardware
- #5016

VertiPlanFile

Large document storage is easy and affordable in the VertiPlanfile. Best document protection.

- Fire Resistance
- Standard Lock
- Saves Space – up to 66% less floor space
- Mobile – Easily Rolls fully loaded
- Fits through standard 32" doorway
- Water Resistance, Dust Resistance
- Casters are removable for mounting on track filing systems
- Powder-coated finishes available in Beige, Gray, Putty, Desert Sand and Black.

VertiMiniFile

The VertiMinifile offers the fire resistance and water resistance of the VertiPlanfile but in a unit of smaller capacity. For user's where floor spaces is at a premium, The VertiMinifile can be a real problem solver.

- Will hold more documents in less space than any other filing system.
- Holds and protects documents using a unique spring compression system and heavy duty folders.
- Standard folders have Mylar reinforced hand holes. Available customization can provide folders to hold several different sized maps, engineering plots, architectural drawings, or any documents in one cabinet.
- Offers the security of a standard lock.
- Double-wall, steel construction and fire resistant insulation, providing fire protection that no other system can match.
- Equipped with heavy duty, lockable, removable casters for complete mobility.
- Powder-coated finishes available in Beige, Gray, Putty, Desert Sand and Black.

VertiCadFile

The VertiCadfile is the perfect storage solution for large documents. The VertiCadfile requires 75% less floor space than Flat File Cabinets, while providing amazing document protection and needs only 6 square feet of floor space.

- VertiCadfile is much easier to use than flat file cabinets. Simply open the flip-over lid (which becomes a shelf) and pull out the required file.
- Holds and protects documents using a unique spring compression system and heavy duty folders. Keeps your documents perfectly flat – No edge curling like flat file cabinets
- Standard folders have Mylar reinforced hand holes. Available customization can provide folders to hold several different sized maps, engineering plots, architectural drawings, or any documents in one cabinet.
- Will hold 1000 24" × 36" documents in minimal space.
- Optional casters for complete mobility. Try to move your flat file cabinets!
- Lower cost per sheet filed than any other system.
- Powder-coated finishes available in Beige, Gray, Putty, Desert Sand and Black.
- VertiCadfile replaces TWO flat file cabinets.

Scale Master Pro XE

The recently updated Scale Master® Pro XE makes it easy to do Linear, Area and Volume takeoffs with speed, accuracy and confidence when estimating, bidding or planning.

Scale Master Pro XE with PC cable

All the same features as the Scale Master Pro XE plus the included PC Interface cable lets you transfer rolled values from the Scale Master® Pro XE directly into commonly used spreadsheets or estimating programs.

Features

- Wide Range of Dimensional Units: Use best-suited units to fit your work: Decimal Feet, Feet- Inches, Decimal Yards-Feet-Inches, Miles, Nautical Miles, Acres, Millimeters, Meters,Kilometers, and Hectares – most available in square and cubic formats.
- 91 Built-in Scales: 50 Imperial (Feet-Inch) and 41 Metric for maximum versatility in architectural, engineering and civil/map scaling.
- Ten "Custom" Scales: Five each for Imperial and Metric units, lets you "roll" or define any scale, even from plans that have been reduced, enlarged or are out of scale. Permanently store the new scale for future use.

Wheel Master Classic 12

The Wheel Master Classic 12 is a heavy-duty measuring wheel designed for professionals.

- Pistol grip handle for ergonomic comfort
- Lightweight, folds to half size (41" to 22")
- Sturdy flip-down kickstand
- Measures up to 9,999 feet, 11 inches
- Two-Year Warranty

For Contractors, Estimators, Engineers, Landscapers, Paving Contractors, Real Estate Pros, Appraisers, Utility Personnel, Surveyors, Police Work, Facility Engineers, Telecommunications Contractors; Fencing, Flooring, and Janitorial Specialists

Tech Specs

Display: 6 digits, up to 9,999 feet, 11"
Accuracy: 99.7% (+/- 1 inch in 30 feet)
Warranty: Two-year limited warranty
Product Weight and Dimensions in shipping box: 4.25 pounds, 21.25 x 13 x 7 inches
Length: Extended: 41 inches
Folded: 22 inches
Wheel Size: 12.5 inches diameter, 39.3 inches circumference

Wheel Master Pro with Case

The Wheel Master Pro 12 is a commercial-grade measuring wheel designed for professionals.

- Balanced center-line design
- Reset counter with thumb or foot
- Lightweight, folds to half size (38" to 19")
- Sturdy flip-down kickstand
- Measures up to 9,999 feet, 11 inches
- Built-in carrying handle
- Two-Year Warranty
- Includes FREE carrying backpack case, regularly a $24.95 value!

For Contractors, Estimators, Engineers, Landscapers, Paving Contractors, Real Estate Pros, Appraisers, Utility Personnel, Surveyors, Police Work, Facility Engineers, Telecommunications Contractors; Fencing, Flooring, and Janitorial Specialists.

Tech Specs

Display: 6 digits, up to 9,999 feet, 11"
Accuracy: 99.7% (+/- 1 inch in 30 feet)
Warranty: Two-year limited warranty
Product Weight and Dimensions in shipping box: 4.25 pounds, 21.25 x 13 x 7 inches
Length: Extended: 38 inches
Folded: 19inches
Wheel Size: 12.5 inches diameter, 39.3 inches circumference

DigiRoller Plus III

Dependable, Durable and Accurate

- Easy-to-use handle-mounted controls with 7-digit backlit display
- Easy transport and storage - it has a built-in carrying handle and folds to half size
- Work in the units you use - U.S. or metric
- Center line design for balance and accuracy
- Measures up to 9,999,999 feet, meters, yards or inches
- Includes backpack carrying case
- 2-year warranty
-

Great for: General Contractors, Estimators, Paving and Concrete Contractors, Landscapers

Tech Specs

Measuring Range: 0 to 9,999,999 (yards, meters)
Wheel Accuracy: 99.5%
Internal Math Accuracy: 12 digits
Length: Extended - 40.5" (103 cm)
Folded - 21.5" (55 cm)
Wheel Size: 12.5" diameter (32 cm) 39.3" circumference (1m)
Maximum Speed: 12 mph (19 km/h)
Display Capacity: 7 digits (9,999,999)
Weight: 4.1 lbs (1.9 kg)
Power: One 9V battery
Operating Temperature: 14°F to 104°F (-10°C to 40°C)
Storage Temperature: -4°F to 140°F (-20°C to 60°C)

Leica Disto™ E7300

The compact and versatile Leica DISTO™ E7300 has multiple functions and is easy to use.

- Power Range Technology™
- IP54 dust and water splash protection
- Illuminated 3-line display
- Automatic multifunction end-piece

Leica Disto™ E7400x

The Leica DISTO™ E7400x is designed for demanding job site conditions and measuring tasks.

- IP65 water jet protection and dust-tight
- 360° tilt sensor
- Smart Horizontal Mode™
- Height tracking
- Power Range Technology™
- Illuminated 4-line display
- Automatic multifunctional end-piece

Leica Disto™ D330i

With a measuring accuracy of ± 1/16 inch (± 1.0 mm), the Leica DISTO™ D330 offers high precision at the touch of a button.

- Leica DISTO™ transfer software and AutoCAD® plug-in
- Smart Horizontal Mode™
- Inclination measurement (± 45°)
- Illuminated 4-line display
- Multifunctional end-piece
- Robust with IP54

Leica Disto™ E7500i

The new Leica DISTO™ E7500i stands for easy and effortless outdoor distance measurement.

- Pointfinder with 4x zoom
- IP65 water jet protection and dust-tight
- 360° tilt sensor
- Smart Horizontal Mode™
- Height tracking
- Bluetooth® Smart
- Free App – Leica DISTO™ sketch

Leica Disto™ D8

The most versatile laser distance meter in the world! Equipped with a digital Pointfinder, high-resolution 2.4“ colour display, 360° tilt sensor and bluetooth® technology.

- Digital Pointfinder with 4x zoom
- Large colour display screen (2.4 inches)
- 360° Inclination measurement
- Bluetooth® - reliable data transfer
- DISTO™ transfer software and AutoCAD® plug-in included

Bluetooth®

Leica Disto™ D810 Touch

World’s first: The Leica DISTO™ D810 touch is the first laser distance meter world-wide with a touch screen, allowing for quick and intuitive operation.

- Touchscreen
- Pointfinder with 4x zoom and overview camera
- Camera with USB download
- Measure with a picture
- Precise 360° tilt sensor
- Smart Horizontal Mode™
- Height tracking
- Bluetooth® Smart
- Li-Ion battery

Scale Master Classic

The affordable Scale Master® Classic is designed for building, engineering and construction professionals. Obtain fast, accurate Linear, Area and Volume take-offs from blueprints, drawings and maps.

Features

- Perform Instant Linear, Rectangular Area and Volume Take-Offs; use it like a pen--just roll and measure!
- Convert between scales and dimensions
- Custom Scales: Six (6) user-set custom scales. Perfect for scaling faxed or out-of-scale plans. Calibrates to any plan and then stores that scale for future use.
- Calculate Rectangular Areas/Volumes (L x W x H). Roll and enter Length of room, then Width and instantly calculate Square Footage.

Scale Master Pro

The new ergonomic design of the affordable Scale Master® Pro makes it comfortable to hold, and the dual LCD displays make it much easier to read.

Features

- Perform Instant Linear, Rectangular Area and Volume Take-Offs; use it like a pen--just roll and measure!
- Convert between scales and dimensions
- Custom Scales: Six (6) user-set custom scales.
- Perfect for scaling faxed or out-of-scale plans.
- Calibrates to any plan and then stores that scale for future use.
- Calculate Rectangular Areas/Volumes (L x W x H).

Pressure Sensitive/Cold Films

Print Pro - Pressure Sensitive Film

Gloss - 4.5 mil UV Vinyl (3.5/1)
Pressure Sensitive clear gloss film on a PVC base - 3" core

Part#	Description
RPG0453801643	PrintPro Gloss 4.5mil UV 38" x 164'
RPG0454101643	PrintPro Gloss 4.5mil UV 41" x 164'
RPG0455101643	PrintPro Gloss 4.5mil UV 51" x 164'
RPG0455401643	PrintPro Gloss 4.5mil UV 54" x 164'
RPG0456001643	PrintPro Gloss 4.5mil UV 60" x 164'

Luster - 4.5 mil UV Vinyl (3.5/1)
Pressure Sensitive semi-relective film on a PVC base - 3" core

Part#	Description
RPL0455401643	PrintPro Luster 4.5mil UV 54" x 164'

Matte-Sand (Pebble) - 4.5 mil UV Vinyl (3.5/1)
Pressure Sensitive pebble matte film on a PVC base - 3" core

Part#	Description
RPM0452701643	PrintPro Matte-Sand 4.5mil UV 27" x 164'
RPM0453801643	PrintPro Matte-Sand 4.5mil UV 38" x 164'
RPM0454101643	PrintPro Matte-Sand 4.5mil UV 41" x 164'
RPM0455101643	PrintPro Matte-Sand 4.5mil UV 51" x 164'
RPM0455401643	PrintPro Matte-Sand 4.5mil UV 54" x 164'
RPM0456001643	PrintPro Matte-Sand 4.5mil UV 60" x 164'

Standard Grade Pressure Sensitive

Gloss - 3.2 mil UV Vinyl
Pressure sensitive Gloss on a PVC base - 3" Core

Part#	Description
CG03238016431	Glossy 38" x 164', 3.2 mil
CG03254016431	Glossy 54" x 164', 3.2 mil
CG03260016431	Glossy 60" x 164', 3.2 mil

Matte - 3.2 mil UV Vinyl
Pressure sensitive Matte on a PVC base - 3" Core

Part#	Description
CM03238016431	Matte 38" x 164', 3.2 mil
CM03254016431	Matte 54" x 164', 3.2 mil
CM03260016431	Matte 60" x 164', 3.2 mil

Pressure Sensitive Mounting Adhesives

Royal White Mount
White Mount with single release liner - 3.2 mil (1/1.2/1) Double sided pressure sensitive white polypropylene film - 3" Core

Part#	Description
RWM0322501003	WhiteMount Adhesive 25" x 100'
RWM0322701003	WhiteMount Adhesive 27" x 100'
RWM0323802003	WhiteMount Adhesive 38" x 200'
RWM0325402003	WhiteMount Adhesive 54" x 200'

Royal Clear Mount
Clear Mount with single release liner - 3 mil (1/1/1)
Double sided pressure sensitive clear polyester film - 3" Core

Part#	Description
RCM0303802003	ClearMount Adhesive 38" x 200'
RCM0304302003	ClearMount Adhesive 43" x 200'
RCM0305102003	ClearMount Adhesive 51" x 200'

Speciality Film

DryErase Overlaminate Pressure Sensitive Gloss - 3.8mil PE
Pressure Sensitive Gloss Dry Erase Film on PE Base

Part#	Description
REG0385001503	Dry Erase 3.8mil gloss 50" x 150'

Royal White Opaque Backing Film - 8.4mil
Multilayer Flexible White Opaque Thermal Backing Film: 105°C (221°F)

Part#	Description
RWO8403802003	Royal White Opaque, 8.4mil, 38" x 200', 3" core
RWO8405402003	Royal White Opaque, 8.4mil, 54" x 200', 3" core

Royal FOTO Flex-Sand (Pebble) - 5.9mil
Pebble sand finish, Thermal Vinyl Film: 95°C (203°F)

Part#	Description
RFFS50382003	Royal FotoFlex, 5.9mil, 38" x 200', 3" Core
RWO8405402003	Royal FotoFlex, 5.9mil, 54" x 200', 3" Core

Royal Antimicrobial Laminating Film - 7.2 mil
Pressure Sensitive Matte Sand Finish on PVC Base

Part#	Description
RAVA074809803	Antimicrobial laminate film, 48" x 98' on 3"core, w/ permanent adhesive
RAVN074809803	Antimicrobial laminate film, 48" x 98' on 3"core, w/o adhesive
