THE TM SERIES ADVANTAGE

Automatic Paper Detection

Once the media is fed into the printer, the imagePROGRAF TM Series will automatically determine the media type, length, and width, which will be shown on the display panel.

User-Friendly Design

Built for efficiency and comfort with a flat-body design for easy media loading, full-frontal operation, and adjustable user interface screen.

5-Color LUCIA TD Pigment Ink System

Updated Matte Black ink helps to produce crisper lines, sharper text, and vivid posters on plain paper when compared to the previous TM series.

imagePROGRAF TM-615

Mopria® Print Services

Easily connect to Android® and Windows® without the need to install drivers.

Speed

The imagePROGRAF TM Series can produce speeds up to 3.2 ARCH D size prints per minute (24" x 36")*.

* TM-610/615: ARCH D landscape, plain paper, text/line, fastest.

Sub Ink Tank System

The gravity-fed ink tanks allow for virtually every drop of ink in the tank to be used. Plus, you can change inks on the fly, while the printer is printing.

The TM Series is registered as EPEAT 1.0 GOLD and ENERGY STAR certified, maintaining Canon's commitment to being environmentally conscious.

HELP PROTECT YOUR WORK

The TM Series has security features built in for peace of mind for your workspace.**

FREE SOFTWARE

PosterArtist Online

Quickly and easily create professional large format posters.

Accounting Manager

Easily track how much ink and paper is being consumed when printing on your imagePROGRAF printers.

Direct Print Plus

Batch print PDF, TIFF, JPEG, and HP-GL/2 files through the user-friendly interface and monitor the status of more than one imagePROGRAF device.

Media Configuration Tool

Add, remove, edit, update, and arrange media information on your imagePROGRAF devices.

Free Layout Plus

Change the layout of files and arrange them in layouts such as:

- **Fixed Layout:** Match input data to fixed size or roll paper width, and print.
- **Tiling:** Print one large image by joining multiple sheets.
- **Free Layout:** Freely arrange input data on the paper, and print.
- **Folded Duplex:** Print data arranged in a layout suitable for folding.

imagePROGRAF TM-615

* 3.2 ANSI D prints/minute speed measured after first print in Fast Q5 mode, using plain paper. Print speed is based on internal testing. Print speed may vary depending on the number of copies selected, as well as on the settings for size, type, and orientation of paper.

** Canon products offer certain security features, yet many variables can impact the security of your devices and data. Canon does not warrant that use of its features will prevent security issues. Some security features may impact functionality/performance; you may want to test these settings in your environment.

THE FIRST imagePROGRAF INTEGRATED LARGE FORMAT SCANNER

imagePROGRAF
TM-510M

imagePROGRAF
TM-610M

Fast Scan and Copy Speeds:

Users can scan up to 5 inches per second in color and up to 10 inches per second in monochrome. Plus, users can make color copies in as fast as 66 seconds***.

EQUAL DEPTH, WIDTH, AND HEIGHT AS SINGLE FUNCTION MODELS****
