

# HASLAG STEEL SALES

## HISTORY

Haslag Steel Sales, Inc. began back in 1983 with one building that housed structural beams, rebar, flats and angles. Due to the dedication of our management as well as our employees' Fabrication abilities and sales knowledge, our corporation has grown to eight buildings, 40,000 sqft under roof. Haslag thrives on creating superior products and providing excellent customer service. We have a very talented group of fabricators that are ready for any challenge.
