

Gynecology Awareness Month

Your Well-being, Our Priority

Why Gynecology Awareness Matters:

Early detection of reproductive health issues

Education on menstrual health, menopause, and more

Promoting regular gynecological check-ups

Breaking the stigma around women's health

Early Detection of Cervical Cancer

Pap smears can detect abnormal cells in the cervix before they turn into cancer. When found early, cervical cancer is one of the most preventable and treatable cancers.

Why complete an annual pap smear?

Helps Track HPV Risks

Pap smears are often combined with HPV (human papillomavirus) testing, the virus that causes most cervical cancers.

Available Services:
