SOUL PROJECT

Music entertainment & Party Band

From an idea of Paolo Diotti, a constantly evolving musical project was born.

Thanks to the collaboration of professional musicians known nationally and internationally, "Soul Project" was launched.

Ready to break pre-established measures, to rearrange songs by giving them new life. Their concerts are captivating for their originality that is mixed with refinement.

They boast a professional experience achieved over the years that has led them to reach an artistic level widely recognized by the public and professionals. Different and wide-ranging experiences have converged in the project.

SOUL PROJECT

The vocal-musical combination is rich in soulful sounds, all in harmony with the melody that is interpreted from time to time with personality and originality.

Eclectic and chameleonic, they are able to adapt to the most diverse circumstances, choosing the repertoire and the most suitable training for the occasion.

Soul Project provides emotions and musical involvement. From soul to pop, from funky to jazz, from dance to Italian classics, the collection interweaves musical paths aimed at satisfying the needs of a mixed audience with a refined taste.

The strength of Soul Project is its unique flexibility. Starting from an indispensable nucleus represented by the arranger and producer Paolo Diotti, from time to time artists of renown talent alternate in different formations always guaranteeing the same energy and the highest quality outcomes.

Paolo Diotti

Producer, composer, arranger and pianist.
