

Fontbonne believes that relationship is at the heart of mission. The Service Program is faith-based and designed to give students an opportunity to actively engage in community outreach while exploring its connection to their faith and the Gospel call to serve the dear neighbor. It is an integration of action and reflection. Students are asked to complete a minimum of **100 hours** of volunteer community service (unpaid) to the dear neighbor by the time they graduate. Students are expected to complete at least 25 hours per year starting in grade 9. *Registered incoming 9th graders may start their service hours during the summer before they enter. **8th Graders attending Fontbonne may begin earning service hours towards the graduation requirement in Quarter 4 of their 8th Grade year.

The 100-hour service requirement may be reduced by 25 hours for each year a transfer student does not attend Fontbonne. For example, a student entering Fontbonne in her sophomore year would complete 75 hours before she graduates.*

It is our hope that as students experience service, the emphasis on the requirement becomes less important as they develop a greater awareness for the value of building relationships and having a positive impact on another's life. Students may complete more than 25 hours per year. Hours submitted in addition to the 25 hours will be carried forward as service hours for the following year. Many students establish relationships in the community and reach the required 100 hours before their senior year and continue to serve because of its value.

What does this program offer?

This program allows you to:

1. Live your faith by the way you give of yourself to others.
2. Learn about other people's life experiences.
3. Come to recognize and alleviate some of the injustices and suffering in the world.
4. Come to discover God in all people and creation.
5. Demonstrate our connectedness to others as one human family.
6. Further discover your own unique gifts, talents, and abilities.
7. Share your gifts, talents, and compassion to make the world a better place.

What can I do for service?

Volunteer opportunities can be found in a variety of places. Before beginning a service activity, students are asked to verify their placement with the Office of Mission & Ministry. Examples of service may include work with the elderly, children, animals, the homeless, those with special needs, or the infirm. Placement sites might include hospitals, animal shelters, after-school programs, parishes, libraries, community centers, food pantries, etc. Students may also fulfill some service hours within the Fontbonne community. Teaming up with friends or relatives is a great way to become involved in the greater community and may also help with transportation and support. During the academic year, the Office of Mission & Ministry will offer service opportunities. Three-day Service Summits are scheduled during the vacation week in February and April. Students can earn up to 15 hours of service each week the summit is offered.

What is not acceptable service?

Inherent to membership in a family and school community is the expectation and hope that students will participate with a sense of responsibility and generosity. A community service activity is meant to be outside the scope of these natural commitments, outside our comfort zone, where others are underserved. Therefore, students' service cannot be work for pay, assistance at a family business, a co-curricular activity (unless designated to be a service opportunity), or home chores, including babysitting younger siblings. It is recommended that students have their volunteer activities approved before they begin their volunteer work to avoid the possibility of the service being deemed unacceptable.

What else are students responsible for?

Students are responsible for identifying a supervisor at their service site. The supervisor must be at least 21 years old and will confirm, if contacted, that the student did volunteer at their site. Please refer to the service forms provided to track service hours during the summer months before beginning at Fontbonne. At the 9th-grade retreat in October, the Service Program will be explained to students, and they will sign a contract stating their commitment to complete their service hours. Students are asked to reflect on their call to serve the dear neighbor and on their service experiences through reflections in Theology class each year.

How are the service hours reported?

Students report their service hours on an online platform, which is introduced to the 9th-grade class at their service retreat in October. In the meantime, students may use a paper document to track their hours over the summer. These documents may be requested from the Office of Mission & Ministry. A senior may not take part in graduation exercises or receive their diploma until they have met their service requirement for graduation. The total required hours will be different for transfer students as previously indicated. This difference will be noted on the online platform.*

What is the service requirement for international students?

International students are not required to complete 25 hours of service a year. At the end of each academic year, a letter will indicate the number of service hours submitted by the deadline and the designation that they have fulfilled that year's requirement. Instead, international students have until their senior year to complete the 100-hour service requirement. ***All Fontbonne students must complete the Service Requirement for Graduation to graduate.
