refill per
month!***

*“Designed
for those, who value
space, sustainability,
and smart living.”
— EcoWater Product
Director*

Softened water, smarter living.

The eVOLUTION Duo+ brings soft water to even the smallest spaces, without compromise. Protect your home and care for what you own.

By reducing detergent and energy use by up to 50%, Duo+ supports the habits that matter - cutting waste, lowering your footprint, and saving on everyday costs. Because smarter living should feel just as good as it is responsible.

What makes eVOLUTION Duo+ a water softener like no others?

TINY FOOTPRINT, BIG IMPACT

- Ultra-flexible design with 2 separate tanks fits where others can't
- Perfect for tight kitchens, laundry rooms, or utility corners
- Smart algorithm lowers salt and energy use - for you and the planet

SUSTAINABLE COMFORT

- Protect what matters - your appliances, plumbing and peace of mind
- Cuts your daily costs with up to 50% less soap, detergent, and waste
- Only 1 salt refill per month*

STAY CONNECTED, STAY IN CONTROL

- Get instant salt level alerts - when you need them
- Track your water use and take control of your consumption

YOUR LIFE. SOFTENED.

- Feel the difference with water that's gentle on your skin and hair
- Keep the things you love lasting longer, from favourite outfits to home essentials
- Enjoy a home free from scale and streaks, where everything feels softer and looks cleaner

* family of 3 @308ppm hardness

TAKE THE FIRST STEP TOWARDS **SAVING HOME WATER** – STAY CONNECTED

The easiest way to start reducing your water usage is by understanding how much you use at home. With a connected EcoWater softener and the Hydrolink Home EU app, you can monitor daily water consumption, detect unusual patterns, and receive alerts - right from your phone. Simple, smart, and available in 14 languages, the app gives you full control over your water softener and helps your household become more sustainable.

Download Hydrolink Home EU now!

Available on the **App Store** and **Google Play**.
