PEDIATRIC HEALTHCARE ASSOCIATES
(203) 452-8322

Dear Caregiver / Patient,

Today you are being asked to complete one or more of the following developmental and/or emotional tests. The appropriate tests, based on your child's age, are included in this packet.

- ☐ **ASQ Screening** – for all children 9 months to 15 months of age (this will be given in the office)
- ☐ **MCHAT Test** – done at 18 months and 24 months
- ☐ **Pediatric Symptom Checklist (PSC-17)** – for all children 6 to 15 years of age
- ☐ **Modified Testing for Teens (PHQ-9)** – for all teens 16 & 17 years of age
- ☐ **Patient Health Questionnaire (PHQ-9)** – 18 years and older
- ☐ **Edinburgh Postnatal Depression Scale (EPDS)**
- ☐ **Social Determinants of Health (SDoH)** – all annual well exams
- ☐ **Preschool Pediatric Symptom Checklist (PPSC)** – 30 months to 5 years of age
- ☐ **Tuberculosis Screening**

All of these standardized tests are recommended by the American Academy of Pediatrics to determine any signs of developmental and/or emotional concerns.

These tests will be submitted to your insurance company. Depending on your plan, the testing might be subject to a deductible or co-insurance.

<u>If so, you will be billed for any patient balance.</u>
