

Manners 4 Minors®

Leaders in Character Coaching for little ones

Self Awareness | Self Management | Responsible Decision Making |

Social Awareness | Relationship Skills

Using our Famous Puppets and role-play we demonstrate to the children what reaction they can expect when they use the good manner or life skill being presented - and the reaction they can expect when they don't! The secret to our success is they learn the WHY of expected behaviour in a fun way. By being well informed and educated, the children leave with a clear understanding of the choice they have, and the consequence, – and, ultimately, if they make the wrong choice we have created CONSCIENCE because they know better.

Creating children prepared for the future with:

Conscience **Respect** **Confidence**

Attitude of **Empathy** **Acceptance of**

Willingness to please **consequence**

Consideration of the feelings of others

Awareness of choice of behaviour

Fabulous Feedback

What Parents are saying ...

Thank you so much, its very clear to me now and we enforcing the rules very strictly. You definitely made for this job.

I saw how the children can identify with the role play and how this can change their behaviour. You amazing in this job. My daughter told me I must learn the characters.

I saw already how her behaviour changed. She even says sorry when she see I am upset. That got me shocked.

You come like rain from heaven in my house, thank you so much.
Kind regards
Cornel

Good day Bianca

Thank you for the amazing work you doing wow!!!

I recommend it to all parents especially being away from our child for so many hours a day and hectic schedules we tend to neglect at times to address important things and you have it all covered! We look forward every week to follow up with Gabriella re new lesson and she would tell us if we as her parents step out of line at times: "guys that's not good manners Princess Penny don't like that no no no!"

Thank you once again for the outstanding contribution in Gabriella's life we really value and highly recommend it!

Hi Bianca,

We are thoroughly impressed with the thoroughness in which you offer the course and already note a clear difference in Christopher's ways, which we are building on with guidance from your posts.

Kind regards
