KINLIGHT LED

A group of super hard working people

KINLIGHT LED 晶联科技

PRODUCT CATALOG

LED Back-Lit Flat Panel Light

Long lasting, highly-efficient LED packages. Improve overall energy efficiency.5 Wattage and 5 CCT switchable.

LED T8 Tube Light(G13)

Type A+B Single or Double Ended Shatterproof Plastic / Anti-deformation Aluminum. 5 Wattage and 5 CCT switchable.

LED Strip Light

Easy installation and Linkable. With No-flicker. 5 Wattage and 5 CCT switchable.

COHESION
More than 30 administrative and production management team, after 10 years of running-in, there is a good understanding and cooperation between each other. So we can deal with different tasks efficiently.

TECHNOLOGY
Our manufacturing workers are very stable, have accumulated skilled work experience, production efficiency is high and stable. This keeps the manufacturing cost of our products competitive.

SUPPORTED
We have established good trust and friendship with our suppliers. "Building a closed loop supply chain ecosystem" is what we have been doing with our suppliers. This keeps our material costs and delivery times competitive.

CULTURE
Our corporate culture: fraternity, integrity and dedication

VISION
Focus on product improvement, service upgrade

**VALUES**
With our business partners to create a sustainable future

Certifications

Has Multiple Certifications
With multiple certificates and certifications, including ETL, DLC, Rohs, FCC.

LED Back-Lit Flat Panel Light-5CCT/5Wattage

· 5 CCT and 5 Wattage switchable.
· The luminaire is built with the highest quality 120-277V / 120-347V drivers.
· With No-flicker, designed to reduce glare and improve light distribution through precision formed.
· Available with sensor and emergency power.
· DIMMING: 0-10V dimmable standard.
· 5 Years Limited Warranty, Rated lifespan for 50,000 hours.

· Certification:

Input voltage	120-277 V
Input power	720W
PPF	1728 µmol /S
PPE	2.4 µmol/J
Viewing Angle	120°
Spectrum	Full Spectrum
CRI	>80(white)

LED Grow Light

· No UV or IR in the beam.
· Output constant current lever can be adjusted through output cable with 0-10V.
· Easy to install and operate.
· Energy saving, long lifespan.
· Light is so uniform, safe to eyes.
· Instant start, NO flickering, NO humming.
· Can be connected in parallel, according to customer requirements.
· Applicaon: Green house / Ver cal farming / Marijuana cultivation
