New “Value Maintenance” 5K/12Month

Includes: Synthetic Motor oil rated for 5,000 miles, a NAPA oil filter and a road test by a Master Technician. You get Witt Quality without removing the wheels.

This new “Value Package Maintenance” is for you if:

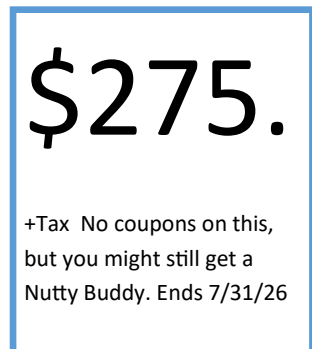

- *You don’t drive much
- *You don’t need tire rotation and balance.
- *You have a low mileage vehicle.
- * You don’t want an exotic motor oil.

This is for those who DO WANT a professional expert who doesn’t work on commission or get a sales bonus to give your car an honest inspection with premium caring service. CALL US.

Road Trip for the “Best Dam Sandwich”

Only 120 miles away is Dick’s Place in Lawrence, Nebraska. It is on Highway 4. Take Highway 6 west and turn left on Highway 15. Follow 15 to get to Hwy 4. Turn right and follow Hwy 4 to Lawrence.

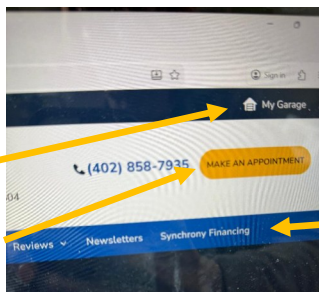

2 char-grilled cheese burgers and 2 very thick slices grilled ham. As advertised.

\$275.
+Tax No coupons on this, but you might still get a Nutty Buddy. Ends 7/31/26

Car Quiz Answers to Quiz on Page 2

1. T or F—Only 1 of these is a real car part. Which might you really have to buy? A. Blinker fluid B. Muffler bearing or C. Horn lubricant?
2. T or F—Front brake pads are thicker and do 80% of the braking, but rear brakes might wear out faster.
3. T or F—You’ll get a much better deal on a car if you announce on arrival that you’ll be paying in full.
4. T or F—The TPMS light coming on after a tire rotation may be a normal event.

What's the Deal with the 3-Day Week?

We manage our business by the minute. We reduced unproductive time. We don't interrupt our techs. We have parts ready before cars arrive.

In order to hire the best technicians, we ran an ad: **"We'll pay you for 5 days, you work for 3. What do you think?"** We have the best techs in the state.

We love our work. We pride ourselves on excellence. We are fresh and focused every day, but by Wed at noon, we are worn out.

Tips for Buying a Car—Google search "Common problems with 2016 _____". Always search the year as well as the model. Potential great reading there.

Risk vs Reward—General rule is that the more you pay, the less the risk. A car from a respected dealer is far less risk than one with a salvage title from a person who has only owned it a month. Duh.

Avoid Salt State Cars—The Northeastern States are nice to visit. According to my shop owner friends, cars only last about 10 years there due to rust. Once rust starts, it's with you forever.

We may be selling a WITT car. If you need an extremely reliable school car or another car to use as a spare, this is a great chance. Both have new tires. The engines don't consume oil, either.

WITT 4 is a Silver 2002 V-6 Accord with cold AC, leather, climate control and moonroof. \$5,000. 215k mi.

WITT 6 is a Black 1999 Accord LX 4 cyl. with cloth interior, cold AC. 240k miles. We wrote the first ticket on this one at 35,000 miles and every one since. Looks like new inside and out. \$4,000.

Both cars are current on maintenance, need no repairs and could easily be driven over the Continental Divide and on to the Redwood Forest.

We will only sell one of them.

What does this mean for you?

Your car will always be in the hands of experts.

You will never have to bring a car back because "we didn't have the parts for your appointment".

Really good shops run a week behind. **So we are no different than anyone else that asks that you book time a week ahead.**

WARNING—A recent news story reported that Climate protesters entered a car dealership that sold hi-end cars that got poor gas mileage. To protest this they sat around a car on the show floor and super-glued their hands to the floor. At the end of the day the staff turned out the lights and left. This was not us. There is nothing hi-end about this place. The expiration dates of all our specials can be extended to the end of the year if you just ask. Only one special per visit. No, if you go out the door and come right back in that doesn't count

Answers to Quiz

1. Muffler bearings are the result of translation. The heavy rubber parts that hold up the exhaust or **bear its weight** are listed as "muffler bearings" in some Honda catalogues. They don't wear out. This part might also be listed as a "hanger" or an "insulator". Who thought a muffler might need to be insulated?
2. True. Stability Assist will apply or pulsate the rear brakes to keep the vehicle stable in a slide. Reduce brake wear, don't drive crazy.
3. False. Never say you won't need financing. Dealers can make more on financing than they do selling the car. Signing to buy is just the start, they'll work you over for many other things.
4. True. This is a recent development. Some cars have to have the TPMS reprogrammed after a tire rotation. In some cases, after reprogramming the light comes on and the car has to be driven 20 miles or more to get the light to go out and the system to work right again.

Save Time, Don't Be Late

We open at 6:30. Drive to our shop when there is no traffic. Pick up a loaner car. Let the Witt Team fawn over it for a spa day.

Return our loaner the next morning when there is no traffic on the roads. Get your car back refreshed and ready for more adventures.

Our Annual Maintenance service is good for a whole year or 8,000 miles. At only 6 cents a mile, it is a deal. So call us.
