### Our 31st Birthday

#### We opened 31 years ago this month

We still have clients who started with us from that one-bay shop on a dead end dirt road.

We've always been about trust, quality and using scientific data to prevent breakdowns and repairs.

**Susan B.** started with us over 30 years ago and we just helped her buy a '23 Civic with less than 5,000 miles. She did a lot of research to determine the perfect car for her and saved money buying used. Yes, we help our clients buy cars.

**Honda sniffs out potholes?** Yes, Honda has teamed up with Ohio Dept of Roads to deploy Hondas that use vision and LiDAR sensors to detect needed road repairs. It has 99% accuracy for signs, 93% for guardrails and 89% for potholes.

The contents of this publication are 100% the product of Becky, Laura and their vast support staff. All the copy you read here is original material. No artificial intelligence was used, either. We've included a \$75 reward (coupon) for reading it. Mention it, it's good all year. Thank you.

## Love Your Valentine

You've had your car a long time. You bring it to us on a regular basis and it performs exactly as you desire. So, maybe you show your love with new tires.

Perhaps you could share a quiet, intimate dinner. Present new wiper blades as a thoughtful gift.

Wooo.

**Perfect Universal Sun Visor.** A tip from our friend Ellen to help avoid being blinded by the sun this time of year. She carries a baseball cap that works perfect when the sun is at a low angle. She will be the mature lady driving while wearing a baseball cap sideways.

## \$50 says we can make your headlights work better.

We can polish a lot of headlights so they are dramatically better. The top photo shows a light that is so glazed over, it is dangerous to drive with it.

Is this permanent? No, but it's a great improvement. You might be able to hand polish them after this to keep them clear. No charge if we can't do it.

## Answers to Quiz

1. True. The front wheels are being driven and the rears are rolling free. This puts traction out of balance. Shift to neutral to regain control and glide through the corner.

2. False. This is how to freeze your doors shut until about July. Wash early in the day if possible. Park in the sun. Best trick is to wipe the door jambs and all the weather strip on the door. Use the heater on high heat, full fan. This forces air in the door to dry.

3. False. This is the worst thing ever. It causes the rear to slide out on turns or braking. All 4 tires have to be the same. If you have to have snows, get all 4.

4. True. This is absolutely the best speed and power for the job. The tires grip and less likely to slip.

Creep right by those people who are spinning their wheels and are stuck.

## "...No Matter How Much You Owe"

"We'll pay off your loan, *no matter how much you owe*. Owing more than the car is worth is known as "under water".

4th quarter 2025 found over 29% of trade-ins on new cars were under water an average of \$7,214.

You are not wrapped up in this nightmare. While we service your car, you get to drive WITT 6, a 1999 Accord with 236,000 miles that works perfectly. Our loaner cars are our marketing to show you how well we can keep cars running even when they are old with a gazillion miles. Thanks for your trust. (Data from Edmunds.com)
