

Closed for Labor Day Sept 7, 8 and 9

Touch Up Your Own Ouches

The problem with getting a new or newer car is dealing with the inevitable heart ache of scrapes, scratches and other attempted destruction.

The ugly white scrape on the front of our new WITT 6 is obvious.

It may not have scraped the factory paint. In fact, it turned out to be paint deposited by a 2nd party.

A little polish, some elbow grease and a microfiber towel started to remove a little of it. Aha! Pretty soon it was all gone, just like it never happened.

Pictured above it is nail polish, which is an excellent touch up paint. "An Affair in Red Square" from Sally Beauty supply fits the bill for this car.

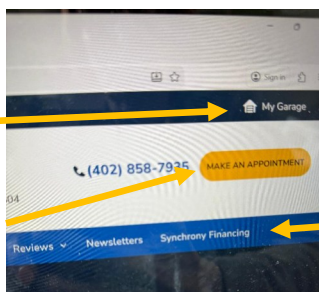

Toyota Truck Rust

Frame rust has been a serious issue. Get your own truck inspected regularly. Don't buy one until it has had a rust check.

Access Your Own Service History

On our website, top right corner, click on **My Garage**. You can look up all your cars. Click link below to make your appointment.

Flood Car Quiz Answers to Quiz on Page 2

1. T or F—Letting your daughter "bedazzle" the steering wheel of her car with tiny sparkles is a great way to get her to bond with her new ride and learn to care for it.
2. T or F—Most cars with Adaptive Cruise control have 3 settings to adjust the following interval.
3. T or F—The best way to get through deep water is to get a run at it.
4. T or F—When driving through deep flood water, get behind a large truck. The truck will push the water forward in a wave, enabling you to get your Civic through the water.
5. T or F—Enter calm flood water very slowly and cautiously. If you hear water lapping against the bottom of your car, stop. Back up and find another way

Coupon

75 Wittbucks

Good on Annual Maintenance, includes oil change. Must use this or mention it at time of sale. This is an "I read the Newsletter" bonus.

Offer ends 9/21/26 for sure. Also good for Dr. Pepper.

Apply for your NAPA card in the privacy of your own home. Go to:

<https://www.georgewitt.com>

Click on Synchrony Financing on the far right of the blue bar. Get approval in minutes.

What's the Deal with the 3-Day Week?

We manage our business by the minute. We reduced unproductive time. We don't interrupt our techs. We have parts ready before cars arrive.

In order to hire the best technicians, we ran an ad: **"We'll pay you for 5 days, you work for 3. What do you think?"** We have the best techs in the state.

We love our work. We pride ourselves on excellence. We are fresh and focused every day, but by Wed at noon, we are worn out.

Laura to the Rescue!

Prius is towed in with a massive fuel leak from a fuel line. The part is no longer available from Toyota.

Laura checked the aftermarket, used auto parts, making one ourselves—nothing. She found the last one in the world sitting on a shelf at a Toyota dealer in Virginia.

Her grit and determination was amazing. We were able to keep a car on the road because she cared. Thank you, Laura.

Sold the Old WITT 6, Got a New One

We sold the black Accord WITT 6, which we had over 10 years.

Welcome the new WITT 6, a pristine Camry. Make an appointment so you can drive her yourself.

Like all of our loaner cars, we started servicing this one when it was new. Call us at 402-434-6961.

Mirror, Mirror, on the Windshield

Many drivers have forgotten the little tab on the bottom of the interior rearview mirror.

It can be flipped back and forth to adjust for either daylight driving or to reduce the glare of headlights behind you at night. So, now you can flip off that big truck behind you at a stop light.

WARNING—There continues to be confusion over our free treats. We do not always have Nutty Buddys. They go fast, quick like bunny. We do have a nice variety of foods that are bad for you, however. While we do have Dr. Pepper, both real and diet versions, Sgt. Pepper has died of a lonely heart, or so it was reported. The expiration dates of all our specials can be extended to the end of the year if you just ask. Only one special per visit. No, if you go out the door and come right back in that doesn't count as a second visit.

Answers to Flood Quiz

1. False. Each little crystal is now a piece of buckshot in a loaded shotgun. When the airbag blows, the shotgun goes off and everyone and everything in the car is blasted. Put the sparkles elsewhere.
2. True. Vehicles are shipped with the middle setting as the default. Play with different settings to get the best results for each driving situation. Heavy traffic should get the tightest setting to prevent cars from cutting you off constantly. Ticks you off.
3. False. That's the best way to make the news. One ounce (a shot glass full) of water sucked into your engine air intake destroys the engine. Bummer
4. False. You're not driving in snow, duh. If the truck stops, slows or meets another truck, this is the second best way to make the news.
5. True. We said calm water. Once water is deep enough to lap against the bottom of your car, it can start to float. You don't want to be Huck Finn rafting down the river. Water also hides eroded holes.

Save Time, Don't Be Late

We open at 6:30. Drive to our shop when there is no traffic. Pick up a loaner car. Let the Witt Team fawn over it for a spa day.

Return our loaner the next morning when there is no traffic on the roads. Get your car back refreshed and ready for more adventures.

Our Annual Maintenance service is good for a whole year or 8,000 miles. At 6 cents a mile, it is a deal. So call us at 402-434-6961 or online at: www.georgewitt.com/appointments
