

The club is teaming up with the Angling Trust again in December to clear our riverbanks of unsightly rubbish. This will be our third year working in support of 'Anglers Against Litter', a campaign that began in 2020 and has now been taken up by over 200 clubs across the UK.

We plan to meet at Hillier Garden Centre Car Park at 9.00am on Saturday December 6<sup>th</sup>. The clean-up will include the North Bank and Stepping Stones and will run till around 1pm. All volunteers will be provided with hi-vis vests, litter pickers and bin bags, but please bring suitable footwear, gloves and refreshments.

ReAP, a company dedicated to recycling plastic from aquatic ecosystems, will be collecting all plastic waste after the event to ensure it doesn't go to landfill. The club has also arranged for Mole Valley District Council to collect all non-recyclable rubbish.

Thanks to continued sponsorship from Shimano, the Angling Trust has been able to provide clubs with the equipment needed to take such positive environmental action. To find out more about this important initiative, visit: [www.anglingtrust.net/get-involved/anglers-against-litter](http://www.anglingtrust.net/get-involved/anglers-against-litter)

Anglers, perhaps more than most people, have a deep appreciation of nature and their surroundings. So let's safeguard the well-being of our river by keeping it free from litter. To register to participate in the upcoming litter pick, please email: [volunteer@dorkingas.co.uk](mailto:volunteer@dorkingas.co.uk)
