"The outstanding 2023 'Flower Bomb' is beautifully fragrant with jasmine and honeysuckle tones on the nose alongside lychee and lemon rind. The palate is big and generous with a serious verve and great weight and length. This is glorious stuff that is drinking beautifully now. Drink 2025-2031"

"This is always a fascinating spin on this aromatic variety. Stonefruit, citrus peel, guava and orange blossom scents make for a wondrous nose. The palate carries similar flavors of tropical blossoms and pineapple guava, set atop a grippy texture. Hidden Gem"

ABOUT THE LABEL

A shotgun blast tears through a bouquet of yellow roses, scattering petals. The image captures the instant something beautiful comes undone.
