

Field Quality Control Supervisor Training

This seminar provides the training required for **personnel with a minimum two years of experience with asphalt paving operations** to become approved to perform the Field Quality Control Supervisor (FQCS) function required under ODOT specifications or to acquire re-approval after five years since the previous training. **Individuals applying for the first-time as an FQCS must submit detailed project experience to receive approval. Refer to the example spreadsheet for more information.** This session will include training on paving fundamentals and best practices as well as Porous Asphalt Pavement construction to receive an endorsement to construct Porous Asphalt Pavement.

Course Content:

- Introduction and review of the purpose of the FQCS program and Ethics for QC personnel;
- Overview of Quality Control and Quality Assurance
- ODOT Asphalt Mixture Overview
- Review of FQCS Role in Obtaining Density & Smoothness
- Overview of ODOT Specifications for Asphalt Concrete Field Operations
- Review of Common Paving/Mat Deficiencies
- Design, Materials, Construction and Maintenance of Porous Asphalt Pavements

Who Should Attend? Asphalt construction **personnel with a minimum two years of experience with asphalt paving operations** and seeking ODOT QC plan approval as an FQCS, re-approval after five years since the previous training, Independent Quality Firm (IQF) personnel for ODOT Design Build projects, personnel needing approval to handle QC coring, contractor personnel seeking approval to construct Porous Asphalt Pavement and owner agency personnel seeking a better understanding of ODOT specifications and procedures for asphalt pavement construction.

Date & Time: The seminar has been scheduled for March 3, 2026 at The Conference Center at OCLC located at 6600 Kilgour Place; Lakeside Room; Dublin, OH 43017. This training consists of instruction from 8:30 AM to 4:00 PM.
