

PERINATAL OCD TRAINING

VTCPAP in partnership with the Perinatal Quality Collaborative Vermont present a four-hour virtual training, **Perinatal OCD**, led by Bethany (Beth) Warren, LCSW, PMH-C.

DATE: Wednesday July 1, 2026

TIME: 12PM - 4PM EST

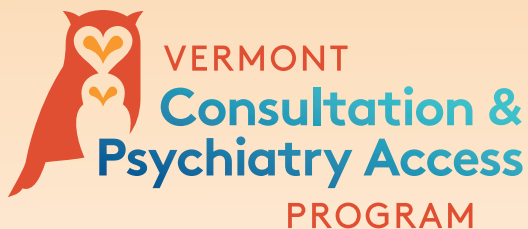

VIRTUAL: Zoom *(details will be sent to attendees after they register)*

COST: FREE

CEU's: 3.75 *(social work, allied mental health practitioners and psychological examiners)*

WHO ITS FOR: Perinatal medical and mental health providers.

Perinatal mental health clinicians often face complex decisions when OCD symptoms overlap with other perinatal conditions. This training will explore screening and treatment considerations for perinatal OCD and demonstrate how to thoughtfully apply Exposure and Response Prevention (ERP) within a holistic, trauma-informed framework.
