#### **FLEXIBLE TRAINING**

Training can be delivered onsite, and online.

#### **END USER TRAINING**

Covers aspects such as adding contacts, skilling contacts, creating requirements, running actions, managing diaries and much more.

#### **ADMIN TRAINING**

Covers aspects such as centrally managing security/permissions, administering action templates, managing job titles, skills/attributes, drop-down fields and much more.

#### **TRAIN THE TRAINER**

Allows our specialist product training team to deliver training to one or more lead users (product champions) within your organisation. These lead users are then responsible for delivering training sessions internally within the organisation.
