I am a freelance Film & Television editor with nearly 20 years' experience working for UK and international broadcasters. I bring enthusiasm and professional expertise to all the projects I'm involved in from documentaries and factual through to entertainment shows and new formats.

I work quickly and creatively; either under my own steam or collaborating with a director/producer to craft compelling and engaging content. I also have a good understanding of visual effects which enable me to add a little extra if needed.

Personal highlights have been Top Gear, Goldblum, Derren Brown's Sacrifice for NETFLIX, getting nominated for a BAFTA for Rob & Romesh Vs Ballet, and being shortlisted for an Emmy nomination for best editing on The Reluctant Traveller for Apple+.
