

LASER CUTTING SERVICES

with **our** TRUMPF 3030 FIBER LASER

SPECS INCLUDE:

MILD STEEL: UP TO 25MM THICK
STAINLESS: UP TO 25MM THICK
ALUMINIUM: UP TO 20MM THICK

- The LoadMaster enables the automatic loading off machine with raw sheets, allowing us to produce 24/7 - 365 days a year.
- Highspeed Eco cutting saving gas and cut time, without affecting cut quality, ensuring quicker turnaround and production times from order to delivery.
- Fast piercing time and maximum acceleration, reducing cost on laser productivity and therefore reducing customer expenditure.
- The quality of our cut leaves a very smooth edge, allowing the perfect finish on every part.

ADDITIONAL SERVICES INCLUDE:

- Press Break Capabilities
- Sheet Metal Profiling
- Precision Machine Shop
- Bespoke Fabrication
- Powder Coating
