

FOUNDER & CEO

PAUL VIGARIO

When you see things differently
you can create something different.

Meet Mr. Paul Vigario. He had a vision for creating new possibilities in the healthcare industry. Instead of focusing on technology in isolated silos, he had a bigger vision of connecting Design & Technology through a clear vision and defined brand. Technology inspires Design and Design inspires Technology. When you combine the two together you can create something really special. Mr. Vigario continues to expand the limitations of healthcare with innovation, experience, knowledge, and an expansive foresight of what healthcare should look like in the 21st century.

ABOUT

PAUL VIGARIO

Paul Vigario an American entrepreneur, healthcare technologist, keynote speaker, and advisor. He is considered a pioneer for introducing technology systems in dental practice and dental office automation. Vigario is a serial entrepreneur who has founded a number of companies and products including SurfCT, a world renowned dental technology integration company.

Vigario is the founder and CEO of SurfCT.com – The Dental Design & Technology Company where Everything Is Connected™. Paul and his company have helped expand the field by connecting design & technology with automation while educating and supporting the dental community. Technology development is escalating exponentially changing the landscape of the dental industry, and is sure to continue its fast-paced growth as it has been proven to automate and drive practice growth. This allows Paul and SurfCT to continually offer exciting new means of providing modern, reliable, innovative, informative, and quality technology care for dentists and their patients.

Vigario started his company from the ground up in 2003 after graduating from the University of Connecticut with a bachelor's degree in Management/Computer Information Systems and a focus on healthcare technology. Through higher education, intensive training and countless hours of on-the-job experience, Vigario has molded himself into an expert in complete digital workflow systems, practice automation and practice growth technologies. He has also cleverly hired some of the finest talent, including design & technology engineers and experts that he has empowered to use their skills in the dental technology field.

Paul Vigario has over two decades of experience having worked with more than 12,000 practices worldwide. Vigario has transformed himself into an expert that wields complete knowledge on how a dental practice should look, function and operate. Vigario has worked with and helped some of the biggest brands in healthcare and well-known dental companies from all over the world elevate to global success. SurfCT takes a holistic approach when partnering with their clients; they seek to create a complete technology office design where Everything is Connected®

ABOUT

SURfCT.COM
Everything Is Connected

SurfCT is a full-range dental and elective healthcare-focused IT company that connects your vision, design, technology, and treatment philosophies to bring your brand to life.

SurfCT.com specializes in network integration and digital workflow of dental and medical offices at the highest level. The company provides unbiased IT consulting to thousands of dental and medical offices across the globe and works with its partners to provide seamless integration of systems designed around their individual goals and vision. SurfCT.com is at the forefront of dental and medical technology and understands the fully connected version of what healthcare offices in the future and present should look like.

They are experts in system design, practice automation, 3D printing, digital workflow, imaging, cloud technology, software, ergonomics, integration, system process, front office systems, clinical treatment systems, mobile connectivity, and hardware, and offer ongoing world-class technical support. They are featured in Forbes, Yahoo! and have been recognized by Top Professional and Top Doctors as the leading provider of healthcare IT services and IT systems.

TESTIMONIALS

“SurfCT is obviously at the forefront of the future of where dentistry is going, and I think really understands that connected version of what dental offices in the future and present should look like.”

Dr Michael Apa, DDS

Owner, Rosenthal Apa Group
Founder, Apa Aesthetic

“With SurfCT, the possibilities are endless. They offer so many different things to improve that patient experience. Whether it’s being able to show people what’s possible, or improving the actual experience here in the office, SurfCT helps us on every single level.”

Dr. Lindsey F. Marshshall, DMD Cosmetic Dentistry

“Surf has been involved with all of our I.T. from the ground up. There’s enormous peace of mind in knowing that our systems are designed the way that I want them to work—and that I know exactly who to call for help.”

Dr. Jason Tubo, DMD, MAGD FIXT Dental

“This is a whole other way to practice dentistry. Not only is it more effective, but it’s a lot more fun too.”

Dr. Anthony Pallatto, DDS Founder of MADE

“Hands down THE BEST dental IT support team ever. As a large endodontic practice, we have sophisticated IT support needs—SurfCT ensures that everything is connected. Everyone on their team is extremely professional, knowledgeable, and forward-thinking. The level of customer service is superb.”

Dr. Elizabeth Shin Perry, DMD Perry Endodontics

“Paul was the person who could what we wanted. I’ve been in practice for 20 years and no one has been able to seamlessly integrate things.”

Dr. Eugenia Prokopets, DDS, MSD

“I focus on one thing, and that is, I focus on my patients. I don’t focus on the IT, I just need it to work and I needed it to work seamlessly. That’s what SurfCT is for me. “It’s peace of mind that we went with the best of the best so that we don’t have to worry about anything.”

Dr. Azam Saeed, DMD, MA Ace Dental
