Background

Bill Tomazin is a retired senior executive with KPMG LLP, serving KPMG's Audit Practice for over 39 years in several leadership roles involving client service, core operations, strategy & transformation, and business development.

Bill served as the National Managing Partner of Operations of KPMG's U.S. Audit practice. In this role, he served as the Chief Operating Officer for a \$4 plus billion professional services business that included over 9,000 U.S. employees and shared service operations that included over 3,000 employees abroad. He was instrumental in driving innovation, total quality management, and transforming KPMG's service delivery capabilities.

Professional and Industry Experience

Bill served as a Global Lead Audit Partner, an SEC Reviewing Partner, and Account Executive on several of KPMG's largest global audit clients, both public and private, dealing with the most complex financial reporting, internal control, and relationship matters.

Bill served in several key operational roles with overall responsibilities for the core operations of the business including growth, service delivery, customer relationships, talent management, and operating, financial and compliance matters. His responsibilities included Business Unit, Regional and National Managing Partner.

Bill also served as Managing Partner of National Audit Solutions, responsible for the transformation of the audit service delivery model. This included the deployment of data and analytic capabilities as well as the development and expansion of shared service capabilities. These transformation initiatives also involved the deployment of major technology systems, data strategies and data governance.

In addition, as National Managing Partner, Bill was responsible for the development, deployment and scaling of all transformational activities across the business (front, middle and back office). These activities included adoption and optimization of the practice's quality management framework, implementation of a continuous improvement platform, alternative delivery channels, and data and technology enablement in the audit.

Technical Expertise

Public and private accounting and audit standards, corporate governance matters, professional service business operations, assurance operations, shared service operations, design, implementation, assessment and remediation of internal controls, ethics & compliance, enterprise risk management, innovation and transformation, data strategy and governance, business process re-design, and change management.

Other Activities

Bill is actively involved in the Chicago, IL and Naples, FL. Community activities. He serves as a board member of the Fiddlers' Creek Community Development District #2 and is actively involved and supports several other charitable organizations.
