

# Froggy Transportation Airport Shuttle at the University of Toledo

## What is it

Froggy Transportation offers airport shuttling service between Toledo and Detroit Metropolitan Airport to the general public. In collaboration with University of Toledo, service is extended to the university campus to accommodate students traveling during breaks.

## How it works

On select days, the bus will make stops on campus in conjunction with daily service out of Franklin Park Mall. Anyone from the general public may take advantage of the additional stop, however only students may receive student discounts.

## Travel Tips

- [Visit our website](#) to find descriptions and pictures of the pickup stops at the airport. The bus operates out of the Ground Transportation Centers at both terminals. This is where all buses and shuttles stop. The stop will be the same area for pickups and dropoffs.
- Make sure to eat food and use the restroom before boarding. Food and drink is not permitted on board, except water. Travel time is 1 - 1.5 hours.
- When planning your trip TO the airport, a good rule of thumb is to arrive at the airport 2 hours before your flight departs, 3 hours for international flights. DTW is the 10th largest airport by size in America, so allow yourself time to move. Testing “airport theory” isn’t worth it.
- If you have checked bags, plan for 20-30 minutes after deboarding your plane for your bags to arrive at a baggage claim carousel.
- If the bus schedule doesn’t work with your flight, [let us know](#). If there’s enough demand, additional times can be added.
- You can [track the bus online](#). Recommended for those waiting at the airport, or for parents.
