WATERS INDUSTRIAL RECYCLING

EPA REGISTRATION: R000301371

Diverting construction & demolition waste (C&D Waste) from landfill and creating environmentally friendly and sustainable products for reuse.

We accept waste concrete, brick and asphalt into the facility for a fraction of the cost of taking it to landfill. Fees, terms and conditions apply. No asbestos, cement sheet or general waste.

We sell direct to the public, offering a full range of road base, aggregates, crusher dust & sand in a variety of materials such as, recycled concrete, recycled brick, recycled asphalt, limestone and bluestone. Materials can be viewed at the facility.

LIMESTONE QUARRY

Located in Bambil & Meringur Vic (approximately 80km West of Mildura).

We offer a full range of limestone products, suitable for road base, driveways, drainage, landscaping and so much more. Delivery available. Materials can be viewed and ordered from the Waste Materials Recycling Facility.

Extractive mining licence.

PLEASE CALL (03) 5021 2249 FOR A FREE, NO OBLIGATION QUOTE.

ABOUT US:

Established in 1964, Waters Excavations is a family-owned and operated civil construction company. Located in Mildura, we proudly serve the North West of Victoria (Sunraysia region) and extend our services across the river into South West NSW. With over five decades of experience, we offer a comprehensive range of civil construction works, catering to both minor hourly rate projects and major government infrastructure initiatives.

At Waters Excavations, we prioritize building positive and harmonious relationships with our clients and stakeholders. We believe that fostering a collaborative environment leads to effective problem-solving and successful outcomes. To ensure the highest standards of project delivery, we leverage modern construction technologies, while maintaining a focus on quality workmanship and trade-based skills. Our team's dedication to professionalism and expertise enables us to manage projects to the highest standards of quality and efficiency.

PROVEN RECORD:

We have an extensive track record of successfully completing various types of projects, including:

Pipe laying: Our expertise includes the installation of drainage, sewer, irrigation, town water mains, and other pressurised systems. Materials include reinforced concrete, FRP, PVC, HDPE, and ductile iron.

Precast and in-situ concrete works: Including pits, headwalls, regulator structures, driveways and kerb.

Road works: We specialise in gravel driveways, new road construction, car parks, road stabilisation and rehabilitation, sealing, and asphaltting.

General earthworks: Our services include building pads, site leveling, and bulk fill operations.

Dam and levee bank construction: We are skilled in lime stabilisation techniques and HDPE lining for dam and levee bank projects.

Pump stations: Our expertise extends to mechanical and electrical works associated with pump stations.

Land clearing and tree removal

Demolition: We hold a medium-rise demolition license, allowing us to undertake demolitions up to five storeys in height in Victoria and Low Rise in NSW.

3D design and GPS civil construction: Using advanced technologies for accurate and efficient project planning and execution.

Our client base includes government organizations such as councils, water authorities, and private businesses such as builders and primary producers.

CERTIFIED MANAGEMENT SYSTEMS:

At Waters Excavations, we are committed to excellence in quality, occupational health and safety (OHS), and environmental responsibility. As a testament to our commitment, we hold the following certifications:

ISO 9001:2015 Quality Management Systems

ISO 45001:2018 OHS Management Systems

ISO 14001:2015 Environmental Management Systems

WATERS INDUSTRIAL RECYCLING

We operate the region's first construction materials recycling facility of its kind. Our primary focus is on recycling brick, asphalt and concrete waste, transforming it into high-quality road base, aggregates and sand. By doing so, we make a significant contribution to diverting thousands of tonnes of commercial waste away from local landfills each year. Our commitment to waste reduction and sustainability is at the core of everything we do.

We have a fleet of trucks capable of transporting waste to our facility or delivering materials to a designated location. Quotes can be obtained upon request. Individuals have the option to bring their own waste to our premises utilising our weighbridge to obtain precise weights and pricing. Additionally, we offer weighbridge certificates for caravans and similar items for a nominal charge.

To further support our waste reduction initiatives, we operate a comprehensive modern range of quarry equipment. This equipment enables us to crush and screen waste concrete, asphalt, and brick, processing the waste into sustainable products that can be resold directly to the public. Our product range includes a diverse selection of recycled aggregates, road base, sand, and crusher dust, all produced from the processed waste materials. Additionally, we are proud to offer various limestone products that are extracted from our nearby quarry, further expanding our range of sustainable construction materials.

Photo: Screening Waste Concrete at Waters Industrial Recycling.

WATERS INDUSTRIAL RECYCLING

Our CDE Wash Plant (pictured below) enables us to wash processed materials removing the final traces of construction waste such as plastic and wood. As a result, we create clean aggregates and sand products. This process includes recycling the water used in the washing process, minimising water wastage and underscoring our dedication to promoting eco-friendly practises in the construction industry.

We strictly adhere to regulatory standards

and guidelines. We possess an MRCC Permit, ensuring that our operations meet all necessary requirements. In addition, we maintain EPA Registration and comply with the relevant permit conditions. Our commitment to operating in an environmentally responsible manner is an essential part of our ethos.

Established in 2019, we welcome this addition to the Waters Excavations services, with the facility quickly becoming a trusted name in the construction materials recycling industry. With ISO certifications, we demonstrate our commitment to excellence and sustainability.

By choosing our services, you contribute to the preservation of the environment and also support the local community by reducing the strain on landfills and promoting the use of recycled materials in construction projects.

Demolition of Karama Motor Inn

Client: SJM Developments

Contract Value: \$160 K

Contract: 2022

Description:

Demolition of buildings, pool and pavement areas.

Demolition of Hutchinson Motors - Mildura

Client: Mallee Family Care

Contract Value: \$52K

Contract: 2022

Description:

Demolition of building, removal of waste materials, brick and concrete. Clean and resorting site.

LOCK 11 TRESTLE DEMOLITION

Client: Goulbourn Murray Water

Contract Value: \$28K

Contract: 2016

Description: Demolition and removal of 7 weir trestles on Lock 11 Island.

Cut up trestles into manageable pieces, load and remove from site using steel cutting shears to downsize trestles.

EUSTON BRIDGE DEMOLITION

Client: RMS NSW

Contract Value:

Contract: 2014

DEMOLITION OF MERBEIN SAW MILLS

Client: Merbein Saw Mills (Doug Rowe)

Contract Value: \$131K

Contract Date: 2011

Description: Demolition of extensive shed and factory structures of approximate area 3,000m² including concrete slabs. Dismantling and demolition of factory equipment including saw beds.

Removal of underground fuel storage tanks. General site rehabilitation of approximately 50,000m² in preparation for residential subdivision.

MCDONALDS RESTAURANT DEMOLITION LANGTREE MALL

Mildura Rural City Council

Client: Mildura Rural City Council

Contract Value: \$95K

Contract Date: 2011

Description:

Demolition of 600m² restaurant and walkway in the middle of the newly constructed Langtree Mall. Special consideration taken to adjacent new tiled pavement and adjoining business

RED CLIFFS WASTE WATER TREATMENT PLANT DEMOLITION

Client: Lower Murray Water

Contract Value: \$135K

Contract: 2011

Works Description: Removal of asbestos prior to demolition of waste water treatment infrastructure including buildings, pump stations, concrete settling tanks and backfilling of settling ponds. Included levelling off and rehabilitating the site for re-use.

MILDURA ARTS CENTRE THEATRE DEMOLITION

**WATERS
EXCAVATIONS**
PTY LTD

Client: Mildura Rural City Council

Contract Value: \$165K

Contract : Nov 2010 – Jan 2011

Works Description: Approximately 1,000m². Demolition of this building was specialised due to the confined construction space, high building walls against existing buildings and a generally 18m high steel roof structure requiring specialised demolition and dismantling by cranes.

Again, a substantial amount of the demolition waste was recycled and special environmental considerations were required.
