

York IGA Community Chest

IGA Community Chest & other associated programs have raised over \$60 million nationally since inception and we have helped over 7,000 worthwhile causes like yours. This is something all of us at IGA are very proud of.

The IGA Community Chest program raises funds in several ways. One way is by customers purchasing products that carry the IGA Community Chest logo. A percentage of the purchase price is donated to the Chest. We have also raised money through other means such as small events like BBQs outside the store, and bigger events like car rallies and fun runs. An event might raise funds for the program as a whole, or for a specific beneficiary.

Simply by doing your shopping at York IGA and looking for the Community Chest logo, you are helping to build up our very own Community Chest!

Does your Community group have an event coming up? Or maybe you require some equipment or improvements to your facilities? If you do, then you may be eligible.

Your group may submit a request in writing on your community group's letterhead or via your community group's email including the following information –

- Details of your community group and its objective
- Details of what the Community Chest funds will be used for
- Contact details
- Your group's ABN

York IGA Community Chest funds are distributed to ONE community group in November of each year. Submit your Community Chest funds request to payroll@yorkcoop.com.au before 30th October to be considered. And make sure that you let your members know to look out for the logo and grow the Community Chest!

If you require any further information regarding the Community Chest program, please do not hesitate to contact Hayley on 0419 906 867 or email payroll@yorkcoop.com.au.
