

2023 TAMPA TOP DOCTORS LIST

CHOOSING A PHYSICIAN CAN BE TOUGH.

It's even harder in Tampa Bay, where there are thousands of capable, experienced doctors to meet your medical needs from head to toe. On the following pages, our Top Doctors list features 292 physicians named by their peers as the best in each of 67 specialties. The winning physicians in each specialty are listed in alphabetical order. Then, beginning on page 120, our Physician Profiles section highlights some of the best physicians in the Bay area.

WHO DECIDES WHO IS A TOP DOCTOR?

In May, we mailed over 10,600 surveys to physicians in Hillsborough, Pinellas and Pasco counties. We obtained the list of physicians from the Florida Department of Health, including medical doctors (M.D.s), osteopathic doctors (D.O.s) and podiatrists (D.P.M.s).

We asked the physicians to nominate their peers — who in their judgment are the best — in 67 separate medical specialties, then return the surveys on anonymous prepaid return envelopes or complete the survey online. We then tallied the votes from those surveys to compile this list.

DOES TAMPA MAGAZINES CHECK OUT ALL OF THE NOMINATED DOCTORS?

Yes. After the list is completed, we verify that none of the doctors are on probation or have had their licenses revoked.
