

Commissioner Meeting Minutes
June 25th, 2025

Meeting called to order at 6:00 pm.
All Board members present

The Board reviewed and signed Warrants

Mr. Bursch made a motion to approve the minutes of June 11th, 2025, Second, all in favor.

The Board reviewed the three quotes the Superintendent had gotten for materials to start the Rolling Acres water main replacement project. All three vendors were close in price. Mr. Bursch made a motion to approve the quote from HR Prescott for \$10,388.36 to purchase the materials for the Rolling Acres water main. Mr. Esposito seconded the motion, all in favor.

The Clerk had received a revised draft of the public engagement survey from resident Bobbi Turkington that had hers and the group, Citizens for Affordable Clean Water, suggestions and comments on it. The Clerk reviewed those suggestions with Capital Strategic Solutions and made comments on that draft. The Board went through each section. The Clerk will reach out to Capital Strategic and make any necessary changes and present another draft to the Board at the next meeting.

Public Comment

Bill Emkey, Townsend Harbor Rd, had questions about the possibility of running Lancaster Ave to the Keatings well and having a treatment plant there. The Board didn't feel that was a good option but would reach out to the engineering firm, Tighe & Bond, to get more guidance on that option.

Meeting adjourned 7:05 p.m.
