Urge Your Rhode Island State Legislators Today

**SAY "NO" TO PHYSICIAN
ASSISTED SUICIDE
CHOOSE COMPASSIONATE CARE**

Violates medical ethics to save lives and do no harm. Physician assisted suicide upturns ethical codes held by medical practitioners for centuries and is opposed by the American Medical Association and American College of Physicians.

No accountability for lethal drugs. Lethal drugs are not monitored or tracked. Many go unused leaving opioids, barbituates, and other harmful drugs open to falling into the hands of teens and drug dealers.

Sends the message that suicide is okay. Suicide prevention efforts are undercut by creating exceptions for life-threatening disabilities. All Rhode Islanders deserve equal protection when expressing suicidal ideation, not encouragement and assistance to commit suicide instead.

Lacks real safeguards. Where it's already legal, proponents use more legislation or lawsuits to expand it further succeeding in shortening waiting periods, eliminating residency requirements, and allowing lesser-qualified medical professionals to prescribe lethal drugs.

Makes vulnerable people feel like a burden. Half of those dying by assisted suicide didn't want to "be a burden" to families or caregivers. Pain, or fear of future pain, has never even been one of the top five reasons that patients ask to take their own life in Oregon.

Leaves vulnerable people at risk. Disability groups oppose physician assisted suicide because it says their lives are not worth living. Barely 4% of people choosing death in Washington were first referred for a mental health evaluation.
