CLOISONNÉ

WHAT IS A CLOISONNÉ URN?

Cloisonné (pronounced cloy-zon-ay) is a special technique for decorating with small precious metal filaments and color glass enamels to create brilliant artwork. Our Cloisonné urns are shaped and designed by a master artist through applying enamel to finely ground glass before the urn is fired in a kiln. This process is repeated three more times and polished four separate times to enhance the colors and create a smooth surface. The final step is plating the copper with gold and one last polish revealing a truly unique piece for your loved ones.

WHAT IS KIRI?

The Kiri urn is biodegradable and allows a tree to be planted using the cremated remains of a loved one as a substrate. Its innovative design provides the right conditions for the germination and growth of the chosen tree species. Each urn comes with your seed of choice, fertile soil and packaging instructions.

Due to limitations of computer screens and color printers, the color of a product may vary from its photograph.
