Disclaimer of Outer Burial Containers

In most areas of the country, state or local law does not require that you buy a container to surround the casket in the grave. However, many cemeteries require that you have such a container so that the graves will not sink in. Either a grave liner or a burial vault will satisfy these requirements.

Casket Selection Guide

The value, selection and retail price of caskets are affected by a number of factors including:

Material of Construction Creates Value Differences

Bronze & Copper

- The best quality casket material available
- Naturally resistant to rust and corrosion

Stainless Steel

- Premium grades are naturally rust-resistant and long lasting
- Basic grades feature patented cathodic protection which uses an electrochemical reaction to inhibit the formation of rust

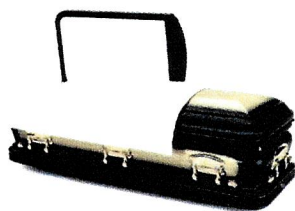

Wood

- Available in solid hardwood and premium veneers
- Wood offers both warmth and natural beauty

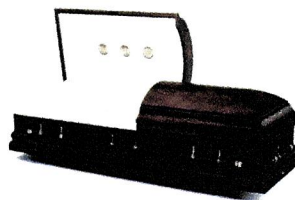

Carbon Steel

- Available in several thicknesses
- Available in a variety of shapes and colors
