ENVIRONMENTAL

BALANCING INFRASTRUCTURE AND THE ENVIRONMENT

HLR's environmental staff bring decades of training, certifications, and genuine dedication to preserving our natural environment—ensuring today's projects protect resources for generations to come.

Most infrastructure projects include environmental considerations. HLR is committed to protecting natural resources while facilitating design and construction that strengthens communities.

Our experienced biologists provide solutions and sustainable alternatives that enhance projects and help clients navigate the complex permitting process. We offer expertise in wetlands, natural area restoration, stormwater control, permitting, threatened and endangered species, noise analysis, and special waste. With established relationships across agencies—including the U.S. Army Corps of Engineers, Illinois Department of Natural Resources, county governments, and municipalities—we help secure permits efficiently to keep projects on schedule.

Our team also specializes in sustainable design features such as bioswales, biofiltration basins, rain gardens, permeable pavers, and porous concrete. These Best Management Practices (BMPs) improve water quality while promoting environmental stewardship.
