

Technical Memorandum 3

Plan Review Synthesis and Draft Project List

Project Identification

A comprehensive review of existing plans and documents was conducted as a part of the 2050 MTP update. The primary purpose of the review was to document existing needs and deficiencies and to develop a list of candidate projects for prioritization.

The following plans and documents were reviewed:

- FAMPO 2045 MTP
- FAMPO 2050 Multi-modal Congestion Management Process
- FAMPO/Cumberland County Comprehensive Transportation Plan
- Fayetteville-Raleigh Passenger Rail Feasibility Study
- ITS Strategic Deployment Plan Update
- Sandhills Bicycle and Pedestrian Plan
- Fayetteville Comprehensive Pedestrian Plan
- Fayetteville Bicycle Plan
- Center City Parks & Trails Master Plan
- NCDOT STIP
- NCDOT SPOT 6.0

All of the candidate projects were compiled into a spreadsheet by mode and reviewed with the MTP Steering Committee. Modes included roadway, bicycle, pedestrian, shared use path, and transit.

- Roadway projects include new roadways, widenings, grade separations, intersection improvements, ITS projects, modernization projects, and access management projects. If a highway project was unprogrammed/unfunded and sidewalk or bicycle improvements were also identified along the road, the pedestrian and bicycle accommodations were included with the highway project.
- Bicycle projects include stand-alone bicycle projects and retrofitting existing roads with bicycle accommodations such as bicycle lanes, separated bicycle lanes, and bicycle crossings.
- Pedestrian projects include stand-alone sidewalk projects and retrofitting existing roads with sidewalk accommodations such as new sidewalks, filling sidewalk gaps, pedestrian refuges, pedestrian crossing upgrades, ADA compliant ramps, and pedestrian signal heads.
- Shared use path projects include multi-use path and trail projects.
- Transit projects include operation of new transit routes and provision of amenities.

The MTP Steering Committee provided input on project status, limits, and descriptions. Projects were consolidated or amended as appropriate. The projects were then divided into two lists: a committed projects list and an unprogrammed/unfunded projects list.

All committed projects are included in the MTP, and unprogrammed/unfunded projects were carried forward to prioritization (see the Financially Feasible Project List for details).
