

# Follow These Tips To Improve Your Community Advertising

## Join your community publishing system

Connecting your business to the community publishing system will enable you to broaden the scope of your online advertising and enhance its reach.

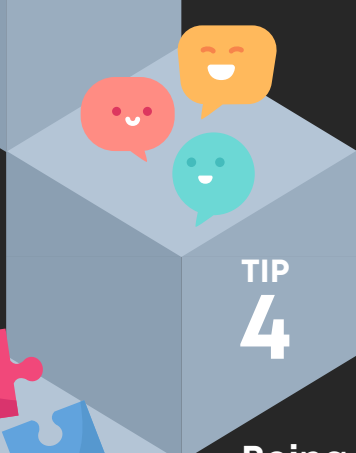

## We handle the research and onboarding

Upon joining, we'll request that you provide us with simply the titles of your top-selling products and services. This valuable input will enable our research team to create the rest of the content and establish your business effectively within our community network.

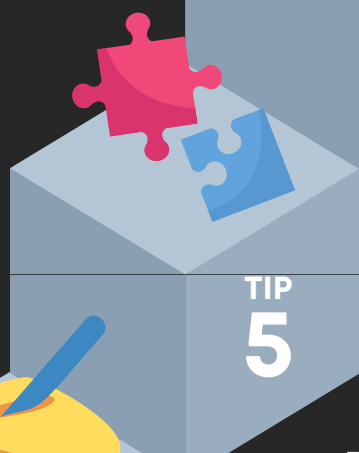

## Get feedback from customers

With the QR code we provide, you can collect valuable feedback from your customers effortlessly. This innovative tool, known as the Business Rating System, ensures that the feedback remains confidential unless you choose to make it public.

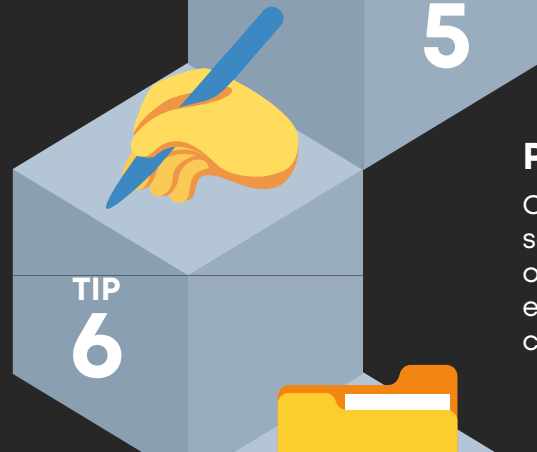

## Utilize the community resources

Upon gaining access to our advanced community advertising dashboard, you will be pleasantly surprised by the multitude of features accessible at your fingertips. The best part is that our comprehensive support is included at no extra charge! Additionally, you have the opportunity to utilize our exceptional system tools and access online marketing classes provided by Grow and Protect.

## Being connected is important

Your local community is rapidly evolving into the go-to platform for publishing all sorts of local products and services. Similar to Amazon, it employs a centralized approach, but with a focus on small-scale, local businesses. Additionally, you'll be able to access the platform via its mobile applications, kiosk network and the community marketplace.

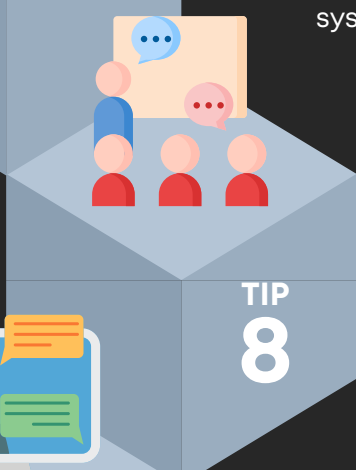

## Pippily.Ai built in

Our team handles your initial onboarding and sets up your top-selling products and services. With Pippily.Ai, expanding your online advertising is effortless. We are committed to delivering exceptional service and content generation, and we're confident that you'll be highly satisfied.

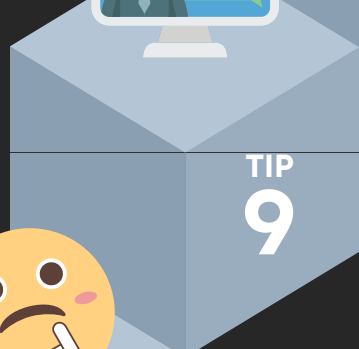

## Get organized

Managing your online advertising, product and service catalogs, mobile catalog app promotions, special offers scheduling, and QR code and keyword texting for business information delivery become crucial strategies with a powerful business publishing system like this.

## Like the old downtown model

During the initial stages of downtown development, buildings were constructed in close proximity to each other. This was to encourage window shopping, which allowed visitors to view the offerings of multiple businesses. In present times, a similar concept can be applied through our community publishing system. By adding your business, more people will become aware of the services you can provide to them.

## Participate in workshops and events

Attend workshops, training programs, and community events that you can be notified about when you add your business to the local community marketplace.

## Really, all of this is included?

Absolutely! Our platform provides an array of resources to enhance your business promotion. These include a marketing and advertising catalog, a mobile application, QR and text codes, a job board, and a special offer publisher. Additionally, you can join our community kiosk network, official community app, and marketplace as part of your subscription. We simplify creating a business profile video, tracking your statistics, and receiving assistance from a committed team focused on your success.

# Welcome to the CommunityMarketplace.Ai

Welcome to the Community Marketplace! We're thrilled to help your business connect with potential customers by providing all the necessary tools and support. As part of the official community organization for local content distribution, you're joining a powerful group.

Adding your business to our marketplace is hassle-free. We'll handle the research and onboarding process at no extra cost, ensuring a successful start-up. Once onboard, you'll have access to a robust dashboard to manage your advertising across the Internet and our local marketplace.

Our community marketplace serves as a central hub for all local businesses. It features detailed catalogs of products and services, convenient mobile apps, search functions, and directories. Everything is designed to make it easy for customers to find what they need.

Centralizing the community search benefits everyone. We gather prospective customer data, generating reports highlighting your most viewed and liked products and services. This valuable information empowers you to focus on what matters most and expand your online marketplace.

We can't wait to serve alongside you on this exciting journey. Together, let's make the most of the Community Marketplace!

## Here is all you can do:

**Easily Manage Your Community Marketplace and Online Ads:** With our community business subscription, you can access a comprehensive range of online advertising tools from a single platform. This solution is both cost-effective and user-friendly. Text "training" to 866-866-5545 and click the DISPLAY button for more information. This mobile app is customized to your business with branding, colors, and content.

**Internet Publishing System:** Utilizing the community marketplace is a wise investment of time. It offers significant leverage by allowing you to create ad displays that will be published on the open Internet and loaded into the community marketplace simultaneously. Additionally, each display generates valuable backlinks to your website and networks.

**Powerful Online Delivery Tools:** Our services include customized QR codes, texting keywords, catalogs, mobile apps, scheduled special offer publishing, community job board, business ratings, ad reports, kiosk instances, and more. With all these tools, you can quickly establish a robust online presence. You can integrate them into your existing website, promote your mobile app by adding a QR code to your email signature, or connect a domain to your community marketplace for a comprehensive and effective web presence.

**Pippily.AI Content Generation Tools:** We aim to offer businesses a simple and effective community marketplace system. To enhance your advertising efforts, give your product or service a clear title and automatically use the Pippily.AI Description button to generate a complete description. If you wish to add more, click the Pippily.AI Marketing button. Our platform makes advertising online and in the local community marketplace fast and easy. We are confident that you will find our system both dynamic and adaptable.

**Support is All Included:** You have access to a reliable team that can assist you with your online advertising network. Our top-notch support comes included with your community business investment, providing you with great value. You can easily access support by visiting <https://helpdesk.ChamberNation.com> or clicking the support button within your community marketplace dashboard.

## Program Features

- **New Business Onboarding:** Our team will handle the research and buildout of your initial business advertisements to get you started.
- **Support Personnel:** Our top priority is to offer exceptional assistance to local businesses without fees.
- **Products and Service Catalogs:** With Pippily.AI integrated into your Pippily dashboard, you can effortlessly promote your business products or services on the Internet and community marketplace. Quickly generate descriptions and marketing content in real-time. Enjoy a seamless experience!
- **Mobile Application:** This mobile application serves as both an electronic business card and a great platform to showcase all your business services in an eye-catching way.
- **Custom Texting Keyword:** We will give you a unique texting keyword that people can use to access your mobile app by texting it to 866-866-5545. This will help them learn more about your business.
- **Custom QR Codes:** You can print or include your personalized QR code in emails, advertisements, and other promotional materials. This is a great way to share your mobile app, private business rating system, an electronic business card that can be saved to their mobile address book, and other similar items.
- **Scheduled Special Offer Publishing:** With our integrated special offer generator, you can easily schedule and publish a series of promotions. You also have the option to distribute flyers to promote your offers further. Connecting this feature to your website will promote all your loaded content further.
- **Community Job Board:** The community job board is promoted across all community business apps, catalogs, and websites, as well as through the community clicker mobile app available on IOS and Android.
- **Community Calendar:** You can submit your business events to the community calendar, which will be promoted on the community website, mobile apps, and through the Eventbrite network for excellent promotional results.
- **Business Rating System:** We have developed a convenient method for users to gather feedback from their customers through QR code scanning. The customers can easily rate the business on a scale of 1 to 5 stars and provide comments of up to 140 characters. Whenever a business rating is received, you will receive an email with options to view, retain, remove, or make it public.
- **System Reporting:** By viewing advertising reports, you can gain insights into the most popular products or services among your audience. This information can be used to expand your offerings and improve your advertising platform.
- **Community Education by Grow and Protect:** Our commitment lies in assisting both communities and individual businesses in achieving success. To achieve this goal, we have partnered with a team that specializes in creating excellent content for the growth and protection of your business.
