

# Power Distribution Solutions

## Electrical Control and Distribution Equipment

### Application

Solaris Power Distribution Solutions deliver advanced electrical control and distribution systems engineered for speed, precision, and reliability. From custom switchgear and transformers to integrated control systems, Solaris combines deep technical design expertise with rapid deployment to keep mission-critical projects on schedule and online.

### Solutions

- Switchgear
- Stand Alone Breakers
- I-Line Breakers
- Transformers
- Automatic and Manual Transfer
- Switches
- Starters
- I-Line Panels
- Panel Switchboards
- 69kV-345kV Substations
- High Voltage Transmission Equipment
- Medium Voltage Micro Grids
- Battery Systems (BESS)
- Wind and Solar Equipment

# Power Distribution Solutions

2500KVA, 24940Y-480Y Padmount Transformer

2500KVA, Multitap Vantran Transformer

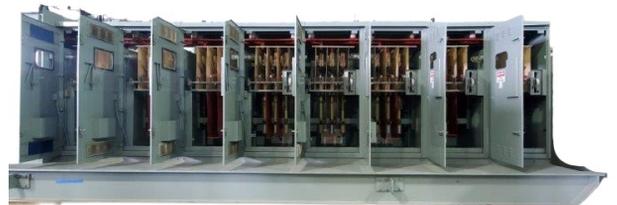

5000Amp, 600V, Main-Tie-Main

Breaker Buss System Container

1200Amp, 5KV, 2-Gang Starter  
Installed Inside a Mini Container

600Amp, 15KV, 8-Gang Switch Line-Up

# Power Distribution Solutions

12,000Amp, 480V, Breaker Buss System  
Installed in a 20' Container

14,000, 480V, Breaker Buss System  
Installed in a 20' Container

2000Amp, 5KV, Multi-Breaker Line-Up E-House

6-Gang Switch Line-Up with Stand Alone  
Containerized Breaker

1200Amp, 27KV Switch

600Amp, 27KV, Breaker Container

# Power Distribution Solutions

Breaker Line-Up E-House

1200Amp, 15KV, Automatic Transfer Switch in a Container

25KV Breaker Trailer

38KV Buss Container
