

## **Press Release**

### **Notification of Presentation Cancellation**

The Warrick County Area Plan Commission (APC) has cancelled the previously scheduled presentation regarding data center development.

Although there are no impending plans or applications for such a project within Warrick County, this informative session was for the Area Plan Commission's benefit. However, the Commission has determined that further research and evaluation for this type of project needs to be done by the board. As part of this process, the APC will look to draft an ordinance to be presented at a future public hearing that is designed to protect the county's values, priorities, and long-term goals should any project of this type ever be brought forward.

As always, the agenda for all Area Plan Commission meetings are posted on the county's website. Members of the public are encouraged to review these agendas for updates and are always welcome to contact the APC office with any questions or concerns.
