

# **Warrick County Commissioners and Warrick County Council Issue Statement Clarifying Inaccurate Information on Friends of Warrick County Animal Control Facebook Page**

**Boonville, IN – August 29, 2025** – Recent posts on the “Friends of Warrick County Animal Control” Facebook page have raised questions regarding the efforts of the Warrick County Animal Control Department. That page is not an official County page and is not managed by County representatives. While we value their efforts to bring attention to adoptable pets, the information contained in recent posts was inaccurate.

The Commissioners and Council are actively addressing challenges facing Animal Control, including budget needs and operational improvements. Our focus remains on providing reliable services, protecting the public from dangerous or sick animals, providing assistance and resources for animal welfare, and working closely with humane societies and rescue organizations.

For accurate and up-to-date information on adoptable pets and Animal Control services, please visit [warrickcounty.gov/animal-control](http://warrickcounty.gov/animal-control) or call (812) 897-6107.

**About Warrick County Government** Warrick County, located in southwestern Indiana, is dedicated to providing essential public services, including animal control, to enhance the quality of life for residents and protect community welfare. The Commissioners and Council work collaboratively to manage budgets, address local needs, and ensure transparent governance.

For more information, contact the Warrick County Commissioners’ Office at (812) 897-6120 or visit [warrickcounty.gov](http://warrickcounty.gov).
