

MITCHPINE

**BASED IN
THE MIGHTY
HOROWHENUA
MITCHPINE
IS A FAMILY
RUN BUSINESS
WHICH HAS BEEN
SUPPLYING
WOOD PRODUCTS
SINCE 1975.**

We are specialists in providing wood products for all your outdoor needs. From rural fencing, poles of all sizes, horticulture and marine wharfs to house piles and retainer walls we have you covered.

OUR HISTORY

We know a thing or two about wood! A family owned and operated business since 1975 we bring three generations of experience to the products we supply.

OUR PLACE

We are proud to be from the Horowhenua and support community groups, schools, and fundraising projects where we can help make a difference.

OUR PROCESSES

We use the most up to date technology and automation to ensure our products are of the highest quality.

OUR PRODUCTS

We work hard to make sure our products are fit for purpose. All products carry the Woodmark brand ensuring the product has been treated to the standards of the New Zealand Timber Preservation Council.

WE ARE A PASSIONATE TEAM WHO ARE COMMITTED TO MEETING THE NEEDS OF OUR CUSTOMERS.

We are always expanding to keep up with demand and strive to have a safe and positive work environment. The safety of our staff, customers, visitors and contractors is of paramount importance to us. Health and Safety is an important part of the business and culture.

We are committed to produce and supply robust, high quality H3.2, H4, H5 and H6 treated wood products in compliance with New Zealand Standards for use in building, landscaping, fencing and rural applications. All our processes are audited under the New Zealand Standard Operating Procedures for timber grading and treatment.

POSTS

Fencing for the farm, orchard or lifestyle property needs to be strong and durable. Our treated pine fencing posts are available in a range of sizes.

POLES

Our treated timber poles are tough enough for any job. Used commonly for kids playgrounds, retaining walls, marine jetties, shelter belts, piling, and construction. Whatever length and diameter needed, we have the right sized pole for any project.

TIMBER

Our treated timber will suit any job from construction of retaining walls, to structural building projects, farm fencing and marine use.

DOMELOC

Our very own stylish wooden fence system. Domeloc fencing is the answer to all your fencing needs as no special tools are required. Made to order we can cater to any fencing project large or small.

LANDSCAPING

A quality range of landscaping supplies to suit all your fencing needs.

POSTS

Constructed in 2023, the Marine Parade pathway is a continuation of the existing Main Beach boardwalk (built in 1999) and is made from a mix of timber and concrete surfaces.

At four metres wide, the pathway provides ample width for multiple users. A unique pathway which attracts millions of visitors each year.

FEATURES AND BENEFITS

New Zealand grown

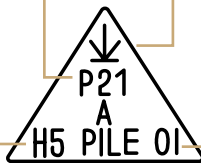

Complies with NZS 3605-2001

H5 treated

P21 – is our unique (Mitchpine) registered House Pile Producer Number. This identifies Mitchpine as a quality pile producer.

H5 identifies the pile as being treated to the recommended hazard class for the intended end use.

The "crows foot" illustrates that the manufacturer is a WOODMARK registered licensee and a member of the New Zealand Timber Preservation Council (NZTPC).

01 identifies the CCA formulation used by the timber treater, whether it be CCA Oxide (01).

LANDSCAPING SUPPLIES

A quality range of landscaping supplies to suit all your fencing needs. Our commitment to quality ensures we offer the best fence piles, and wooden gates for landscaping needs.

OUR PROCESSES

We constantly refine our processes and use the latest technology and automation to ensure our products are of the highest quality.

PRODUCT SPECIFICATION

Mitchpine produces and supplies New Zealand Radiata Pine round and sawn timber. These are treated with CCA Oxide wood preservative as per NZ3640;2003. Mitchpine's treated timber is supplied wet (>24% moisture content).

CCA TREATMENT

CCA stands for copper chromium arsenate which has been in use in New Zealand for over 50 years and has a proven record of safety and performance when used as recommended. CCA is New Zealand's best known and trusted name for wood treatment and means that the treated wood products are highly resistant to decay and insects for decades.

Each board, pole and roundwood is stamped on one end with our specific Mitchpine treatment Plant Number showing:

- Treatment Plant Number:
411 = Mitchpine Limited
- Treatment Chemical: 1 = CCA
- Hazard Class: H3.2, H4, H5, H6
- Qualified Treatment Auditor: NZPC
Woodmark Brand
- Producing Company: Mitchpine
Limited

GRADING

Mitchpine Limited grades to NZS 3631: 1988.

Where there is a requirement for SG8 (wet), Mitchpine produces stress graded timber that complies with NZS 3604: 2011. These boards are identified with a label attached to one end of the board.

- Grading Auditor:
Verified Timber's Brand
- Producing Company:
Mitchpine Limited

All Poles produced comply with NZS3605 and are peeled to remove bark and following the natural taper of the log.

FSC CERTIFICATION

Mitchpine became FSC certified in May 2025. Being FSC certified reflects our commitment to sustainable forestry practices that protect our planet and support responsible sourcing. Get in touch for your next project requiring FSC certified products.

WHY FSC CERTIFICATION IS IMPORTANT TO MITCHPINE

As an FSC-certified company, Mitchpine demonstrates its unwavering commitment to sustainable forestry, ensuring our wood comes from responsibly managed forests. We aim for forestry to not only have a great reputation but for wood to be the material of choice. Complying with international standards is incredibly important to us in achieving this.

Furthermore, our certification helps demonstrate that we are a great place to work, aiding in retaining and attracting individuals who want to make a difference in the environment.

More and more jobs are requiring FSC certification. Get in touch for your next project requiring FSC certified post, poles or timber.

OUR DELIVERY SERVICE

We deliver our product with our own fleet of trucks. This independence gives us the flexibility to cater to our customers needs, from farm drops, building sites and stores.

We believe by having our own trucks and passionate drivers we can form healthy relationships with our customers. Mitchpine provides a fast and reliable delivery service.
