Bermuda 2000 Series

We custom design and fabricate shutter layouts based on location and application. Our Bermuda Aluminium Shutters are suitable for a range of installation types including patios, verandas, alfrescos and high-rise balconies to name a few.

Bermuda 2000 Series uses only the highest quality of finishes, designed as a modern, functional plantation shutter which is aesthetically appealing for both exterior and interior use.

Bermuda 2000 Series will bring maintenance-free durability and style to your home, office, or commercial environment.

Built to withstand tough environmental conditions, our Australian made Bermuda 2000 Series Shutters can also be manufactured with strengthened construction, ideal for cyclonic areas. Our cyclone rated* shutters have been independently tested to successfully withstand the equivalent of up to 279kmp/h winds (Category 4 Cyclones).

Key Points about Bermuda 2000 Series Shutters:

- + Durable construction capable of withstanding high winds
- + Suitable for both internal and external applications
- + Available in 40 Colours
- + Blade Size Options: 90mm & 115mm
- + Sliding, bi-fold, hinge or fixed
- + Cyclone rated option available*
- + Off the wall mounting systems
- + Australian Made
- + Imported option available
- + Locking options available
- + Child Safe

*Can be manufactured with cyclone rating (conditions apply). Test Report available upon approved requests.
