

Why Global?

At Global we understand you have a lot of choices of partners when it comes to entrusting your fire and life safety needs. We believe there are a few key differences that set us apart from our competitors, allowing us to truly be your partner. Together with our associates, we seek to serve the needs of our customers to provide the personalized attention to projects and details that ensures our customers are satisfied with the end result.

Our Vision

Global is more than a name, it's how we think. We are a growing group of associates always striving together to meet customer needs, while maintaining the health of our company. Our passion for customer service shows in the urgency with which we treat our customers' requests.

Our Mission

Delivering exceptional service, on time, every time.

Property Risk Consulting

Specializing in Helping Our Clients, Mitigate Risk, and Develop Long Term Effective Strategies

Global is a trusted partner to insurance companies, underwriters, brokers and builders to analyze hazards, exposure, business interruption and risk to life and property. We are an independent firm with decades of experience helping our clients mitigate their risk and provide innovative solutions for long term strategies. Our team works with our client to identify potential risk, quantify impact to their business and provide solutions to mitigate that risk.
