# DEFENSA EAGLE

## ANTI-CLIMB SECURITY FENCE

DEFENSA EAGLE SECURITY FENCES are Anti-Climb Welded Wire Mesh Panels which offers robust perimeter security with a tightly welded mesh that deters climbing and cutting. The welded wire construction provides strength and durability, making them a reliable solution for protecting properties and assets.

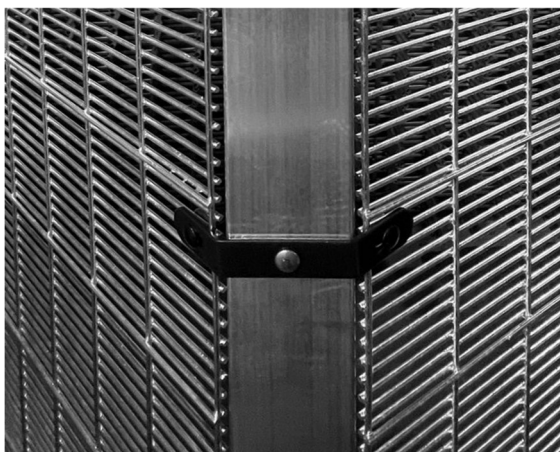

### UNPARALLELED SECURITY

#### KEY FEATURES:

- High Tensile Steel construction for maximum strength.
- Small mesh openings prevent climbing and cutting.
- Durable and weather resistant materials.
- Low maintenance and long lifespan.

#### BENEFITS:

- Deters intruders and prevent unauthorized access.
- Protect valuable assets and sensitive areas.
- Enhance property value and peace of mind.
- Improve overall security.

### BUILT TO LAST

#### TECHNICAL SPECIFICATIONS:

Wire Gauge:

Mesh Size: 1/2" x 3"

Available Heights: 4FT, 6FT AND 8FT

*\*Panels can be stacked to achieve different heights*

Finish options: Galvanized or Painted Semi-Black

#### WIDE RANGE OF APPLICATIONS:

Industrial facilities, Critical infrastructure, Box Stores,  
Commercial Buildings, Logistics Facilities
