

CANADA'S FAVOURITE BACKYARD FENCE

MADE IN CANADA. TRUSTED BY CANADIANS.

 **NORTHERNLIN[®]**

THE LAST FENCE YOU WILL EVER NEED

Are you tired of staining, painting or repairing your old fence? Most fences weren't built for harsh Canadian weather.

NORTHERNLINER[®] is the answer. From -40° cold snaps to 30° summer heatwaves, our fencing is engineered to handle the extreme temperature swings that make Canadian climates unique. Offshore import fencing are simply not built for this.

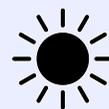

Why homeowners switch to NORTHERNLINER[™]

Withstands freezing
Canadian winters

Grade : Pro-Grade
Impact Tolerance: Robust daily use
Gates: Includes steel inserts

THE NORTHERNLIN[®] DIFFERENCE

NORTHERNLIN[®] Technical Specifications

- ✓ Fade-resistant. UV-stable
- ✓ Lead-free rigid PVC compound engineered for long-term sun exposure
- ✓ Co-extruded virgin vinyl
- ✓ Third-party tested to ASTM & Miami-Dade North American standards
- ✓ Superior UV and heat resistance for long-lasting colour
- ✓ Engineered thermal expansion rate for wide Canadian temperature swings
- ✓ Tested under freeze-thaw cycling, moisture, and temperature extremes
- ✓ Non-porous, non-organic, resists rot, moisture absorption, and decay
- ✓ Naturally termite and decay-resistant. No chemical treatments needed
- ✓ Resistant to warping, splitting, and peeling for long service life
- ✓ Fire-resistant – does not burn, only melts.
- ✓ Class A flame spread rating (ASTM E84)
- ✓ STC 26 Noise Reduction Rating
- ✓ Smooth, distortion-free finish
- ✓ Precision-extruded under tight tolerances
- ✓ Manufactured with exceptional quality control
- ✓ 100% Recyclable

Warranty

Backed by a 20-Year Manufacturer Warranty

Manufactured and engineered in Canada

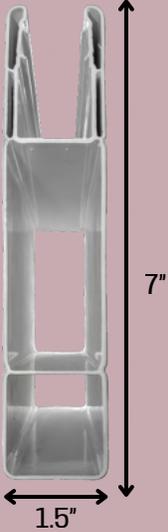

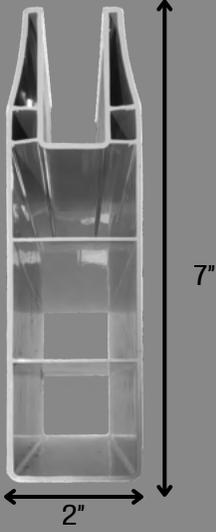

Each NORTHERNLIN[®] vinyl component is extruded in Canada using premium, high performance PVC formulations in state-of-the-art, fully automated facilities.

Tested for real performance

This advanced process ensures consistent colour, precise extrusion and exceptional strength. Profiles are third-party tested and undergo rigorous in-house impact, shrinkage and precision fit testing to verify structural performance, UV stability and durability to North American building standards.

Product Comparison

PRODUCT DETAILS			
		YUKON	KODIAK HD
PRODUCT NAME	Other Brands		
RAIL PHOTO			
GRADE	Standard	Pro Grade	Commercial
POST GAUGE	0.135"	0.140"	0.175"
TOLERANCE	Light-duty	Robust daily use	Maximum impact resistance
DURABILITY AND STRENGTH	Light-duty, can sag over time and feel a bit flimsy.	Strong and resilient. Handles daily wear from kids, pets, and Canadian weather.	Extra-rigid and reinforced. Built for the toughest conditions, heavy use, and high winds. Available in 7' or 8' heights.
WEATHER RESISTANCE	May fade or become brittle with prolonged UV or freeze-thaw cycles.	Designed for Canadian weather. Stays stable through heat and frost.	Maximum performance. Engineered for harsh climates, high winds and high exposure areas.
COST	Low	Competitive	Mid-range
ORIGIN	USA or ASIA	Made in Canada	Made in Canada

DESIGNED FOR CONTRACTORS

Why contractors choose NORTHERNLIN[®]

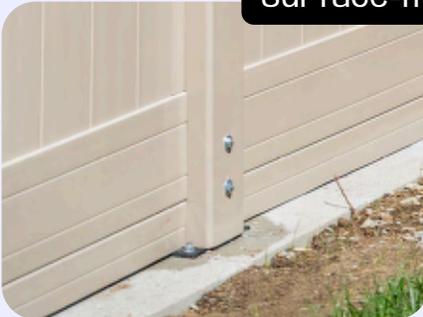

- ✓ Easy to install
- ✓ Heavy-duty gate kits
- ✓ Routed post/rail system
- ✓ Long-term warranty protection
- ✓ Always in stock
- ✓ Ships in 48 hours
- ✓ Compatible with common install methods

WHO WE ARE

WHO IS NORTHERNLINER?

A team of hardworking Canadians with a background in building fences, we've spent 40 years upholding high standards and delivering fences that stand the test of time.

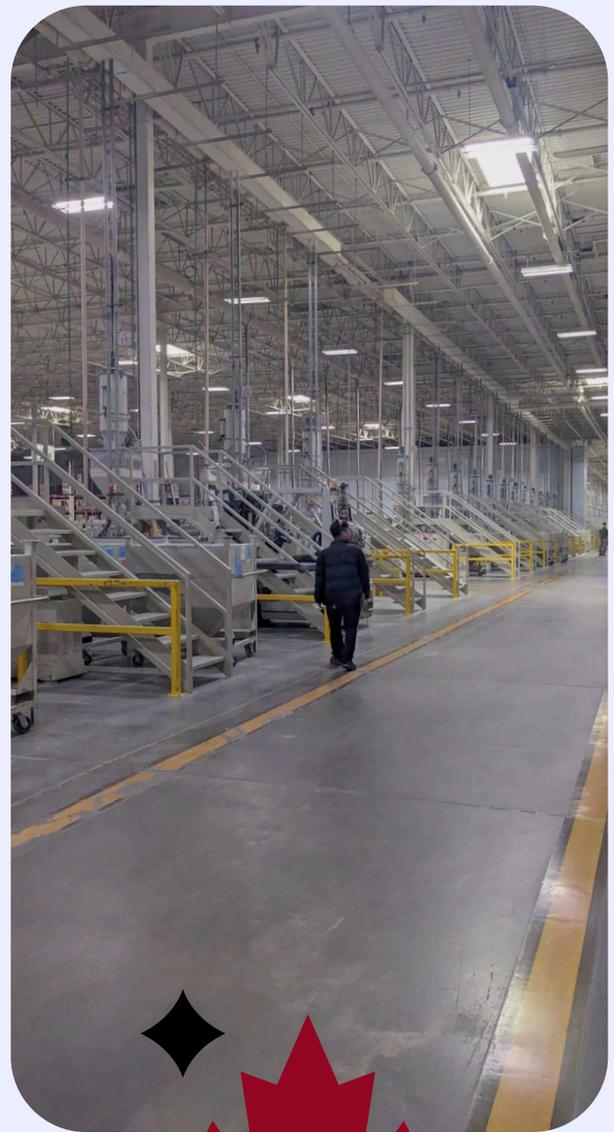

Over time, we saw the need for a more reliable alternative to imported vinyl. A product built with integrity.

That's why we created NORTHERNLINER®.

NORTHERNLINER® is manufactured in Canada with thicker profiles, reinforced rails, and consistent quality built for Canadian conditions. From wall thickness to rail strength, every component is engineered to last.

We are proud to support Canadian manufacturing and stand behind the people we work with through reliable supply and long-term commitment.

Choose NORTHERNLINER® today.
