

Bible Study Spring 2026

Understanding Biblical Imagery

Scripture is packed with symbolic imagery and metaphors. The biblical authors used their reality to enhance the impact of their message on the audience around them, and the language they used is rich with meaning. Biblical imagery is a symbolic language using everyday life- nature, artifacts and geography- to reveal profound divine truths, often requiring cultural context to fully understand. This bible study will explore some of the most common, often repeated, images with tips for understanding the context and meanings to bridge the cultural and historical gap between the biblical world and the present day.

- Wednesday mornings, 9:30 a.m.-10:30 a.m., from February 11-April 1.
- In-person and Zoom available (sessions will be recorded and sent to those unable to attend).
- Freewill donations of \$10 will be accepted.

Please RSVP to Bridget by calling the Parish Office or email bridget.klawitter@stleonards.org
