Sol Siegal
SCHOLARSHIP PROGRAM

SPONSORED BY
OLYMPICSTEEL

A Message from Michael Siegal, Olympic Steel's Executive Chairman:

For over twenty years, Olympic Steel has had the privilege of supporting the academic achievements of more than 200 students through our Sol Siegal Scholarship Program. For the 2026-2027 academic year, we will once again offer up to 10 renewable scholarships in the amount of $2,500 to qualified students, in addition to awarding $2,000 scholarships to previous recipients who meet the renewal criteria.

As Olympic Steel continues to grow, this is one of many ways we are able to enhance the benefits provided to Olympians and their families across the country. It's also one of many ways we honor our founder, my father, and his commitment to education.

The Sol Siegal Scholarship program was designed to recognize and reward the hard work of the children and dependents of eligible Olympic Steel employees – and, in particular, those pursuing "S.T.E.M" (science, technology, engineering and math) related careers. These are fields that support our growing need for innovation and manufacturing.

We encourage all eligible students to apply and to consider the many opportunities available within America's industrial sector. Manufacturing and organizations like Olympic Steel offer diverse career opportunities that directly support the economy and are the foundation of our country.

To that end, Scholarship America, the third-party organization we work with to administer the Sol Siegal Scholarship Program, will give special consideration to applicants pursuing S.T.E.M. and manufacturing-related degrees during application review and selection.

Please take some time to learn more at IamOlympicSteel.com.
