

The X-180 Program

A focused and simplified transition

A personalised experience, tailored specifically for new Executives to hit the ground running and achieve success in their new role.

Davidson's X-180 Program is specifically designed to help Executives successfully transition into their new role.

As your Advisors, our goal is to set you up for maximum success by using 5 key critical success factors to help you define and articulate your focus areas for your first (or next) 180 days.

Nine months into my first CEO role at Moonee Valley City Council, I was very privileged to have had a X-180 workshop. This tool has been really helpful to keep me focused on what matters most to the community, workforce and councillors. Thank you Davidson! The X-180 experience is truly wonderful with long-lasting benefits!

- Helen Sui, Chief Executive Officer, Moonee Valley City Council

The X-180 Program

The complete program centres around the X-180 workshop, a facilitated half day session that brings out your priorities with crystal clear clarity on how to achieve your outcomes and what to do to get there quickly.

Following the workshop, you will receive a confidential and customised report that captures our conversations and findings and a 180-day plan for the executive journey ahead.

Our experienced Davidson team will be your "executive companion" for your first 180 days. You will receive regular check-ins to help you stay focused on the important items and provide an independent and confidential perspective.
