

Avalanche

Stone Wall Cladding

RECOMMENDED USE

High density, low heat absorption, and durable. Perfect for indoor and outdoor wall cladding, fireplaces, and alfresco areas.

DETAILS

Avalanche stone wall cladding supports a wide range of landscape and home styles. It pairs particularly well with timber and concrete pal-ettes and can be installed with or without grout, whether indoors around fireplaces or outdoors on stone feature walls and water features.

Avalanche walling is split on five sides and sawn flat on the back, making installation on suitable surfaces straightforward and effective.
