

Giant Trailer

- **Designed for carrying gypsum board or any material up to 3,000 pounds**
- **Raised platform allows forklift access and easy strap removal**
- **Can be pulled manually or can be towed by an R800 Workhorse or the Roo**
- **Stake pockets allow customers to insert 2x4, providing safety barrier to prevent materials from sliding forward during transport.**

The Giant Trailer is a high-capacity material handling solution built for efficiency and safety. Its heavy-duty deck, stake pockets for secure loads, and drop-down handle that engages the brake when resting ensure reliable transport. With a tight turning radius, it easily maneuvers in confined spaces, making it ideal for demanding job sites.

Enhanced Safety and Ease of Use

Designed with roofers' safety in mind, the Giant Trailer features stake pockets for 2x4s, preventing materials from shifting during transport. The brake automatically engages when in the resting position. Its integrated hitch allows for easy attachment to an R800 or the Roo.

High Capacity, High Productivity

With a spacious 87" x 46" heavy-duty deck, the Giant Trailer accommodates large, bulky materials, reducing the need to break down loads. This helps increase job site efficiency and takes the load off roofers.

A Versatile Material Handling Solution

Take advantage of the Giant Trailer's extended bed and use it as a flatbed trailer for hauling insulation, panels, roof boards or other flat materials. Its durable design and high weight capacity make it a practical solution for a wide range of material handling needs.

FEATURES

Stake pockets allow customers to insert 2x4, prevent materials sliding forward.

Tight turning radius for optimal cart placement.

Large and additional tires to reduce PSI on roof.

The Giant Trailer's large bed and high capacity handle wider loads, reducing trips for roofers.

Integrated brake prevents unintentional trailer movement.

Can be pulled manually or be towed by an R800 Workhorse or the Roo

SPECIFICATIONS

Capacity	3000 Lbs.
Brake	Drop Handle Design
Dimension (LXWXH)	130" X 51" X 25"
Bed Size	46" X 87"
Wheels (Front/Middle)	18 X 8.5 X 8 X 1 (4 Ply)
Wheels (Rear)	18.5 X 8.5 X 8 (6 Ply)
Weight	514 Lbs.

Due to continuous improvement, specifications are subject to change without notice.
