

Bartley's Reservoir

Eptec and Unity Water contracted Aqua Prep to prepare the concrete surface for remediation. Aqua Prep employed hand lancing and an Aqua Cutter 410V robot manufactured by Aquajet Systems to remove 20mm of failed cementitious coating.

This advanced equipment made the project more efficient and allowed the operator to work safely from a distance. After the surface preparation,

This sequence demonstrates a well-planned approach to enhancing the durability of the concrete structure.
