

Wet Well Surface Preparation

Client: Swart and Sons
End Client: SA Water
Head Contractor: John Holland

The Challenge:

Needed surface prep for protective coating to extend asset life.

Our Solution:

High-pressure scabbling (up to 20,000 psi) to remove old coatings and contaminants, ensuring proper adhesion.

Results:

- ✓ Extended infrastructure lifespan
- ✓ Lower maintenance costs
- ✓ Maintained reliability and prevented environmental issues
- ✓ Enabled successful coating application
