

# Water Treatment Facility Scabbling

Project: Water treatment facility, West Camden, New South Wales.

Client: Eptec

Challenge:

Precise removal of deteriorating concrete surfaces was needed for rehabilitation, traditionally involving intensive manual labour and safety risks in confined spaces.

Solution:

Aqua Prep deployed an Aquajet Systems AB robot for concrete scabbling, precisely stripping compromised concrete layers.

Outcomes:

The robotic system delivered superior precision, significantly minimised manual labour in hazardous confined areas, accelerated project timelines, and ensured enhanced structural integrity for lasting water infrastructure.
