A Little History...

Jasper Engines and Transmissions traces its founding to 1942 when Alvin C. Ruxer began remanufacturing engines in the wash bay of his successful Ford dealership. In the years since, JASPER® has become one of the nation's largest remanufacturers of gas and diesel engines, transmissions, transfer cases, and differentials, as well as air & fuel components.

We Make Doing Business Easy!

You will have access to our customer website for ordering, account statements, and core pickup scheduling at your convenience. JASPER stocks units for immediate delivery through two distribution centers and 50 branch locations. Delivery is also FREE in most areas with our own fleet of trucks equipped with liftgates and motorized hand trucks!

Parts & Installation Kits

Air & Fuel Components

6.0L FICM
